ing railway shopmen were
Thursday afternoon to take
tools from the B. & O. shops,
reported.

als of the railroad, the
s said, phoned them and in-
d them that men now work-
he plant were breaking into
ool boxes at will, and that it
be impossible for the rail-
to stand responsible for the
ment.

y of the men, Friday morn-
isted the shops and removed
belongings. The tools had been
here when they first went out
strike more than a month ago,
the firm belief that they would
ck soon. Tools with which the
work are owned in a large
y by themselves.

Large number of workers are
have been shipped into the
O. shops Thursday night. Re-
at police headquarters indi-
cated the imported men
greeted by a delegation of
s and that a near riot was
when the imported workers
hurriedly sent into the shops.

KS ARE HURLED
ice state that bricks were
n, but that none took effect.
also declared that the affair
was quieted down without seri-
able.

Thursdays discounted
of railway officials that a
y had been won by them. The
men are of the belief that
ment control of railroads will
as a result of what they
is inability on the part of
ways to operate much long-

substantiation of this belief,
point to the fact that thus far,
of railroads have been unable to
a sufficient number of men
the equipment in repair
claim to be so thoroughly organ-
that 98 per cent of the trained
and workers are still on strike.

EE TAKES HALF
MILLION TOLL

Buildings at State Fair
Grounds Destroyed.

LUMBUS — (Associated Press)
re firemen injured and prop-
erty estimated at \$500,000 are
results of a fire which swept
five buildings in the group of
ustration buildings at the Ohio
fair grounds at an early hour
morning.

Two hours after the fire was
dis at 4:45 this morning by Pri-
Frank Moore, and Leslie Mar-
of Circleville, of the 145th in-
transport corps, stationed at the
grounds, the blaze was under
ed, but not until every avail-
able fire apparatus in the
had been summoned to the
spot.

The injured firemen are Fireman
Captain Edgington, Russell
n, Ellis Reed and Thomas
Hinery.

INERY BURNED
red in the burned building was
ment belonging to the state
y department which was dam-
beyond repair. It is said the
this equipment will be \$250,000.
The state motor trucks and
building machinery.

It was stated at the office of the
of agriculture that the fire
not interrupt the plans for
ing of the fair and that recon-
struction would be started im-
mately. The buildings destroyed
known as Manufacturers'
ing, Machinery, Hall and Ad-
dison building, which housed
general offices of the depart-
ment during the week of the fair,
had been planned by the em-
s of the department to hold a
at the fair grounds this au-
tumn.

YORKER IS SUED
FOR \$100,000 BY GIRL

NEW YORK.—John B. Wood-
newspaper advertising man of
New York and Chicago was sued for
\$100,000 today by Edith L. Ransom,
war-time director of the bureau
of public information. The young
woman contends that Mr. Wood-
ward promised to marry her and
to do so.

Mr. Woodward, who is 23, alleges
that he was a widower with a
young child, promised to
her his wife while they were
one Sunday evening in Janu-
ary at the Hotel Majestic in Chi-
cago and that he repeated the prom-
ise in October of that year while
in Summit, N. J.

PRISONER KILLS SELF

of non-support died in a hos-
pital after taking poison in his cell.

END OF COAL STRIKE NEXT WEEK BELIEVED ASSURED

Settlement Expected to Come
Monday at Cleveland

OPERATORS ARE OPTIMISTIC

Peace Prospects Bright as
Fuel Famine Threatens.

CLEVELAND — (United Press) —
Settlement of the coal strike next week
as the result of Monday's meeting here
between miners' officials and operators
was predicted today by several of
the largest operators of the Ohio and
Pittsburg district. The Ohio oper-
ators described the outlook as "the most
optimistic since the strike began."

One leading coal operator from
Ohio said the prospect of settlement
was "more of a certainty than a pre-
diction." He said the miners and a
substantial proportion of the operators
were nearer a mutual understanding
than at any time since the strike be-
came effective.

It is known that operators repre-
senting thirty percent of the four
state tonnage are in favor of a settle-
ment. Authorities on the situation
say these operators are in a position
to produce enough coal to relieve
acute fuel shortage.

It was pointed out that the rest of
the operators, the opposing a settle-
ment, would either have to "get on the
band wagon or be left out in the cold,"
while those who settled, benefited by
the cream of the market.

Eighty percent of the Ohio tonnage
will be represented, according to Mi-
chael Gallagher, president of the
Pittsburg Vein Operators' Association
of Ohio.

PEACE FORECAST
PHILADELPHIA — (United Press) —
The nation-wide coal strike will be
settled Monday, it was predicted here
today.

Operators and miners of the central
competitive fields are to meet in
Cleveland.

A majority of the central field will
be represented. Operators speaking
for at least 75 per cent, have accepted
President John L. Lewis' invitation to a
peace parley. This was said at min-
ers' headquarters to be a conservative
estimate.

The Big Vein Operators' Associa-
tion accepted, it was announced, ad-
ding considerable to high hopes for
settlement.

FAMINE THREATENED
ST. PAUL, Minn. — (Associated
Press) — Unless the threatened coal
famine in the northwest is averted
the federal government will be asked
to take over four of the main coal
carriers of the middle eastern states,
Governor J. A. O. Preus declared in
an address here last night.

Speaking before a gathering of
railroad officials, Governor Preus
said:

"If no other plan of getting coal
to the northwest succeeds, then we
will appeal to the national adminis-
trators in an effort to have the four
roads—the Baltimore and Ohio,
Chesapeake and Ohio, Louisville and
Nashville and Norfolk and Western—
taken over by the government."

"These lines carrying coal to the
Lake Erie ports, can supply the
northwest with enough fuel to keep
alive our industries and to ward off
an impending crisis in the situation."

"If the government cannot under-
take this move under present laws,
congress will be asked to provide
necessary emergency regulations by
which it can be done."

ILLINOIS ALARMED
CHICAGO — (Associated Press) —
Illinois, restricted to its own supply
of coal, faces the most critical
situation of the mine strike, accord-
ing to Robert M. Medill, state fuel
director. The only protection that
is to be assured is that to the twenty-
six penal, reformatory and charitable
institutions and possibly to the Uni-
versity of Illinois and the state nor-
mal schools, he said.

The fuel director declared that or-
ders received yesterday afternoon
from Henry B. Spencer, national fuel
administrator meant elimination
of any shipments of coal from the
Kentucky and Tennessee fields that
have been relied on for operation of
street cars, gas, electric and water
plants throughout the state. He
suggested that final decisions as to
what may be expected in the way of
getting out Illinois coal will be
reached at Springfield Monday or
Tuesday.

CONFERENCE MONDAY
CHICAGO — (Associated Press) —
A canvass of coal operators in the
central competitive field, according
to an announcement made today by
representatives of Illinois operators
indicates that only district number
eight of Ohio, comprising about five
per cent of the tonnage of the en-
tire field, will be present at the
conference called for next Mon-
day in Cleveland by John L. Lewis,
international president of the min-
ers. Local coal circles see little
hope of a wage agreement for the
central competitive field, declaring
that settlement of the strike must
come through separate state agree-
ments.

WILL DIG COAL
ST. LOUIS, Mo. — (Associated
Press) — Despite the fact that no
local miners had answered Govern-
ment's call for coal, the state de-
partment today announced that it
will dig coal in the state's coal
fields.

POISON VICTIMS

Miss Lillian Goetz, 18 (above),
and Miss Ida Weissberg, 25, are two
of the six that died as a result of
eating pie containing poison in a
New York restaurant. Sixty others
are ill.

MATHILDE IS NOT MET BY MAX

Miss McCormick Reaches France
But Fiance is Absent.

(BY WILLIAM R. KUHN) —
ABOARD S. S. MAJESTIC, CHER-
BOURG — (United Press) — No lovers'
meeting marked the landing of Ma-
thilde McCormick in France—her fi-
ance, Max Oser, wasn't at the dock.

"Where is Mr. Oser?" I asked the
baby grand-daughter of John D. Rock-
efeller, as we descended the gang
plank of the Majestic.

"Mr. Oser?" parried Miss McCor-
mick, in her best "nothing-to-say"
manner, "why, really, I don't think
this is the place to discuss Mr. Oser. I
am saying nothing regarding my
plans to anybody."

Mathilde seemed a bit cross and had
all the appearance of being perplexed
at the non-appearance of her fiancé.
She was dressed in a brown toque, a
gray tailored skirt and a white blouse
with a low neck.

"Uncle Cyrus" McCormick, who
made the trip from Chicago with her,
came to the rescue of Mathilde.

"It's her own business," growled
McCormick, standing guard like a
Cerberus.

On the trip over I got the impres-
sion from a few short talks with Ma-
thilde, who at times paced the deck
anxiously, that she was going to Swit-
zerland to meet Oser, former Swiss
livery stable proprietor, who is thrice
her age.

However, just before leaving the
ship, the girl said to the stewardess:
"I hope I'll have the same suite on
the return trip."

BUDDY DAY FIXED
Disabled Veterans to Assemble
at Columbus Wednesday.

COLUMBUS — (Associated Press) —
"Buddy Day" will be celebrated
here by all the disabled American
veterans of the world war from all
over Ohio next Wednesday when
they will assemble for an all-day out-
ing at Olentangy Park. It was an-
nounced here today. It is planned
to give the wounded veterans free
access to every amusement in the
park.

The intention is to make "Buddy
Day" an assembly day for veterans
of all wars and also for all members
of associations who were engaged in
the late war. Special arrangements
have been made with commanders
of Camp Sherman and the McCon-
nellville sanitarium to bring all
those veterans who are physically
able to attend.

PEACE MEET TOMORROW
WASHINGTON — (Associated
Press) — Representatives of the six
striking shop crafts unions on the
southern railway will meet in Wash-
ington tomorrow with H. W. Miller,
vice president in charge of operations
on the system, to consider proposals
for settlement of the strike on the ba-
sis suggested by President Harding to
executives of the railroads.

TICKET NAMED IS REPUDIATED

Striking Men Disavow Non-Par-
tisan Labor State.

STATEMENT BY COMMITTEE

Members of Six Shop Crafts
Issue Denial.

That all organized labor in Lima
will not stand behind the endorse-
ment of political candidates made
by a Non-Partisan Labor committee,
was learned Friday when the en-
dorsement was turned down by rep-
resentatives of the six allied rail-
road shop crafts.

Circulars listing the candidates
purported to be backed by labor
were distributed about town Thurs-
day. The list was signed by A. W.
Curlingham, chairman and Charles
Wiesner, secretary of the commit-
tee.

SLATE REPUDIATED
Fourteen Democrats and Repub-
licans were endorsed as the Labor
committee's slate.

Now representatives of striking
shopmen come forward with the as-
sertion that their organizations will
not endorse the slate. In an official
statement the position of the shop-
men is outlined as follows:

"The endorsement of the candi-
dates which was published in The
Lima News was made by the Non-
Partisan League.

"We, the six shop crafts now in-
volved in the railroad strike, are
members of the American Federation
of Labor.

"We had nothing to do with the
endorsement of the candidates."
The statement was handed to the
press Friday morning by a commit-
tee of shopmen, comprising J. C.
Lyle, Tim McLaughlin, and Christ
Veltz.

AFFECTS NEAR 1,200
Sentiment expressed, the commit-
tee says, represents the will of from
1,000 to 1,200 members of the allied
shop crafts now on strike here.

The crafts as a body are not par-
ticularly opposed to the candidates,
but are opposed to allowing the slate
to stand unchanged as an indica-
tion of their intent, they say.

As organizations, the committee
state, the six crafts have not official-
ly placed their O. K. on any slate or
group of candidates.

WOMAN IS ROBBED OF JEWELS

\$1,600 Loss Reported to Police
by Margaret Jewell.

Six diamond rings, a 32 calibre
revolver and \$22 in cash, represent-
ing the possession of Margaret Jewell,
305 E. Wayne-st, were stolen
sometime during the late hours
Thursday night, according to a re-
port, given police at 3 o'clock Fri-
day morning.

Vague whispers of clandestine
revels and parties in which illicit
liquor plays a prominent part, sur-
rounds the mysterious disappear-
ance of the gems.

Police are inclined to doubt that
the jewelry represented in the re-
port given them, is as valuable as
the owner declares them to be.

The woman, when she first told
police of the alleged robbery, es-
timated the value of the missing
jewelry at \$1,412.30. Friday morn-
ing, she boosted the figure to \$1,600.

Twice burglars visited the resi-
dence of the Jewell woman, she
said, taking various of the stolen
articles.

WHERE HUNDREDS FACED DEATH

The wreck of the Grand Republic, excursion steamer which collided
with a ferry in the Hudson river at New York. Several women jumped
overboard and 60 were injured. Playing of jazz tunes by the ship band
drew out panic among the 1261 passengers. William Fatten (inset),
longshoreman, jumped into the river to save one of the women.

BIG RAIL BROTHERHOODS INTERVENE IN WALKOUT

Locomotive Union Chief Puts
Peace Plan Up to Harding.

NOTE ALSO HINTS OF STRIKE

Move to Force Settlement Seen
In Action.

CLEVELAND — (United Press) —
Open intervention by the big rail-
road brotherhoods to save the coun-
try from a transportation tie-up
came today when Timothy Shea vice-
president of the Brotherhood of Lo-
comotive Firemen and Enginemen
sent a lengthy message to President
Harding.

Altho Shea declined to divulge
the contents of the message, it is un-
derstood that it not only contained
a peace plan, but virtually notified
the president that the brotherhoods
would be unable to operate trains
much longer in the face of defective
equipment and irresponsible guards.

STATEMENT ISSUED
In a statement to the United Press
today Shea declared:

"Thirty per cent of the locomotives
are out of service now. Within 30
days 40 per cent will be in such a
condition that operation will en-
danger the lives of the trainmen.
That the 30 per cent will be out
of service in another 30 days."

Shea charged that the life of rail-
road unions depends upon the result
of the shopmen's strike and pointed
out that the brotherhoods also would
be in the path of the "railroad steam
roller."

"If the shopmen are crushed, all
railroad unions, including the broth-
erhood, can expect the same," Shea
declared.

"First are the shopmen, then will
come the other weaker unions. In
the meantime, according to our con-
tracts, the brotherhoods must re-
main neutral.

"Finally, after the railroads have
smashed all the other unions, the
brotherhoods' time will come.

"If we don't strike, we can ex-
pect no assistance from the other
railroad employees. They will point
out that we failed to help them and
stood by and allowed the railroads
to crush them. The railroads will
use the membership of the railroad
unions they have shattered to defeat
the brotherhoods."

CONDITIONS WORSE
It is known that conditions on rail-
roads with regard to equipment and
guards have become steadily worse
for the last two weeks.

Representatives of the brother-
hoods are kept busy scurrying from
one part of the country to the other,
settling differences.

The brotherhood chiefs have held
numerous conferences the details of
which they have declined to make
public.

Shea's message to the president is
interpreted by many as the initial
movement of the brotherhoods to
force a settlement of the strike or
to draw their members from trains on
the contention that the equipment
is unsafe.

Samuel Gompers Urged to Call Sympathetic Strikes

WAIT WORD FROM HARDING

Workers' Next Move Depends on
President's Action.

(BY JAMES T. KOLBERT)
WASHINGTON — (United Press) —
Believing that the life of unionism
is at stake in the fight between the
railroad executives and the striking
shopmen, organized labor is prepar-
ing to meet the situation with its
full strength. It was made known to
the United Press today.

"The menace of a huge industrial
conflict, the greatest in the history
of the country, is in the air," an
American Federation of Labor official
stated.

This official is known as a con-
servative, and generally opposed to
the use of such weapons as the sym-
pathetic strike, now being urged on
President Samuel Gompers by the
heads of union in all parts of the
country.

But conservatives and radicals
alike made no secret of their deter-
mination to support the shop craft-
men in a fight to the finish.

LABOR'S NEXT MOVE
Labor's next move depends largely
on the action of President Hard-
ing. Harding and his cabinet meet
today to decide whether the admin-
istration shall stand aside and per-
mit the executives and the strikers
to fight it out, or to take further
steps for peace. The situation is
so involved, however, that a decision
on the next step may not be made
for several days.

Harding is not inclined to take
decisive action, such as taking over
railroads that fail to function, un-
til every other medium has been ex-
hausted.

But whenever he believes the pub-
lic interest menaced, he will not
hesitate to take that step, he has
made known. He has full consti-
tutional power to secure receiver-
ship for all railroads that fail to
function, his advisers assured him.

PLAN OF ACTION
Should the administration decide
to follow a "hands off" policy, and
the strikers show signs of giving
way, organized labor would be
forced to step in, a labor leader said.
The following plan of action may
be followed:

Calling out of other railroad
unions, one at a time, until trans-
portation is paralyzed, or the ex-
ecutives capitulate.

A general sympathetic strike of
all unions affiliated with the Amer-
ican Federation of Labor.

The first step, according to tenta-
tive plans, is for the railroad unions
to come to the support of the
striking. The maintenance of way
men have voted to strike. President
Grable and other officials of the
union so far have failed to exercise
the strike order. They will do so
whenever they think it necessary, if
a strike of the maintenance of way
men failed to have the desired effect.

Highly skilled railroad workers,
such as the engineers, would step
out.

HARDING'S WORD AWAITED
CHICAGO — (Associated Press) —
Developments in the railroad
strike today were confined to specu-
lation as to what the next peace
move would be and reports of violence
from various points during the
past 24 hours.

Union officials here were awaiting
word from President Harding with
regard to their message accepting
his proposals for ending the walk-
out. Railroad executives and strike
leaders still maintained their atti-
tudes on the question of seniority.

Two deaths resulted from vio-
lence, one in Edgemont, S. D., where
a switchman of the Chicago, Mil-
waukee and St. Paul was shot, and
the other in Chicago, where a carpenter
employed in the Illinois Central
shops was beaten to death.

A Union Pacific trainmaster was
seized on the main street of Las
Vegas, Nevada, taken several miles
into the desert and given a coat of
tar and excelsior. At the same town
four women attacked the wife of a
Union Pacific roundhouse foreman
as she was carrying dinner to her
husband. She was beaten severely.

Mayor Cowart of Waycross, Ga.,
revoked the licenses of two barber
shops where barbers refused to
shave non-union men.

The Nashville, Chattanooga and
St. Louis Seaboard Air Line and the
Western and Atlantic railroads were
charged with maintaining a "stand-
ing army" to suppress the strike of
railway shopmen in a lengthy an-
swer filed at Atlanta, Ga., by union
officials to the petition of the roads
for continuance of a temporary re-
straining order against the strikers.

RAIL AID SENT SOUTH
NEW YORK. — (United Press) —
Eastern carrier sent aid today to
four southern railroads hardest hit
by the shopmen's strike.

Skilled workers were reported en-
route to shops of the Chesapeake
and Ohio, the Norfolk and Western,
the Virginian, and the Louisville and
Nashville—roads which serve non-
union coal fields of the south.

These roads, according to L. F.
Lorée, had "disclosed unsatisfactory
conditions" at the meeting of rail
presidents here Tuesday when Presi-
dent Harding's proposals were re-
jected. Fearing the administration
might see in the needs of this group
fresh reason to intervene in the
shopmen's strike, Lorée said eastern
roads, with cooperation of some
western carriers, are "going to the
rescue."

NEWSPAPER ARCHIVE

NEWSPAPER ARCHIVE

POWER LINES TO BE REVAMPED

Believed Agreement Exists With Ohio Power Co.

INSTALL NEW POLES, CABLES

Work to Start at Once, City Officials Informed.

That the revamping of the power and light lines operated in Lima by the Ohio Electric railway company has already started, was announced Friday.

Information received by the city commission is to the effect that more than \$200,000 will be spent immediately on the power lines within the city. C. A. Bingham, city manager, said.

Abandoned poles will be removed, new poles and cables installed and hundreds of other improvements will follow immediately, the city has been informed.

This expenditure is being made upon the order of B. J. Jones, receiver of the lines. Bingham has been informed. The fact that the company is bankrupt and has no franchise is expected to be of no importance.

NEWS IS CONFIRMED — Bingham's announcement bears out the statement of The Lima News Thursday that the Ohio Power Co. had ordered material and property for the reconstruction of the lines here before they had purchased the property or obtained a franchise.

It is believed that the Ohio Power Co. is so confident that it will obtain the franchise here that it has entered into an agreement with the Ohio Electric whereby many improvements will be made before the actual exchange of the property occurs.

City officials point out, however, that they have reached no agreement with the Ohio Power Co. regarding rates, especially those which apply to street lighting and domestic consumption of current.

Unless this agreement is arrived at, the Ohio Power Co. will not be granted a franchise, officials declare, and if it purchases the property of the Ohio Electric it will have to reopen negotiations for the franchise.

This will give the city advantage in the negotiations as the company will have huge property interests here. It is pointed out.

These improvements have nothing to do with the street railway situation, the city commissioners have been informed, and there seems to be no hope for the street car situation except that offered by D. J. Cawley.

Desires of the city commission are now being put into a tangible form and the representatives of the Ohio Power Co. may be invited to return for a conference should they desire to seek the grant of a franchise at this time.

RANDOLPH IN DARK — C. W. Randolph, representing the receiver of the Ohio Electric, said Friday, he is positive that the improvements announced by Bingham were not contemplated by the bankrupt company.

"It is news to us here and it is such news to be done it must be proposed by the Ohio Power Co., with whom the city has been conferring regarding a franchise," Randolph said.

All property of the Ohio Electric will be sold at a special master's sale at Toledo, under orders from the federal bankruptcy court. It was desired by the Ohio Power Co. to obtain a franchise before the sale of the property took place.

Less than two weeks remain in which the Ohio Power Co. and D. J. Cawley may obtain the franchise they desire if they are to bid them before they attempt to bid in the Toledo sale, officials point out.

City officials are watching with great interest the reconstruction of the power property here as it has been reported to them.

RELIEF SEEN IN COAL SITUATION

Prices Advancing; Priorities to Aid Lima Plants.

Coal prices in the Western Kentucky field are strengthening, dispatches from the field to local coal dealers state.

Prices quoted Friday were up 50 cents on the ton, when compared with former quotations. All grades were listed at \$9.25 to \$9.50 per ton.

Eastern Kentucky, West Virginia and Pocahontas grades of coal were higher at \$7.75 and \$8.25, with most of the output going to the railroads and public utilities.

Operators in the western Kentucky field are preparing to ask for a stabilization of prices in their district and this may help the situation here if any coal can be gotten thru. Prices should range between \$6 and \$7 a ton, it is believed.

Lima waterworks and electrical plant will not need to worry as to its fuel supply, advices from Columbus indicated Friday. Priorities will shut enough coal into the city to keep the plants running, it was said.

This also applies to the Ohio Electric and the Western Ohio power plant. The latter is expected to be able to obtain coal at \$3.50 and \$3.75 a ton, it is said.

Full information as to priorities and the manner in which they will affect Lima industries will be given out at a conference between George H. L. Breckinridge, chairman of the chamber of commerce fuel committee, Friday.

Following the conference it is believed the situation here will be cleared and the future aid will be fully known.

BABIES GET BID TO MEET

LENIA MADRIN PHILLIPS

Babies were invited to the fourth annual convention of the National Federation of Business and Professional Women's Clubs at Chattanooga, Tenn.

"Several women who attended had young babies and could not have taken a trip without them, so we provided parking space and a trained nurse to look after them during sessions," explained Lenia Madrin Phillips, executive secretary of the organization.

"The aim of our organization is to make better business women for a better business world. We decided we couldn't take them into the organization too young."

LABOR SHORTAGE IS FEARED

Contractor Seeks Men for Locomotive Addition.

Work on improvements at the Lima Locomotive works is to begin Monday, it was announced Friday by officials of the Stewart Construction Co., of New York City. It is feared that a labor shortage will be seen, construction men said Friday. It is understood that a force of 500 men will be advertised for soon.

A force of 350 men will be put to work as rapidly as they can be hired, the officials said.

Bricklayers, concrete workers, steel workers and common laborers will be taken on as fast as possible until the required 350 workers are secured, it was announced.

Officials of the company estimate that with a force of such size working continually, the improvements will be complete by the first of the year.

The improvements were provided for at a recent meeting of stockholders when \$1,500,000 was appropriated for expansion.

BEETLES SEEK HIGH PEAKS

On nearly every bald summit of the northwest, including the main Rocky Mountain, Bitter-Root and other ranges, large numbers of ladybird beetles collect every fall.

This beetle seems to have a strange habit of spending the winter on the summits of mountains from the main range to the coast.

The young are soft bodied, living on plant life and other small insects. The adults are small red beetles with black spots on the wings. During the summer they are widely distributed over the mountain slopes and in the valleys.

In early fall the beetles collect by the hundreds of thousands on the summits. Wooded, brushy, or smooth summits are avoided. Piles of loose rock are necessary, where crevices give opportunity for the insects to crawl under and hide. Here beetles enough to make quarts or gallons

may be found, both living and dead. Migration of birds is common, and migration of butterflies is not rare. But migration of these beetles from lower to higher altitudes is very strange. Animal migration supposedly leads to better places for living. This seems to be for worse conditions. The beetles undoubtedly assemble from adjacent slopes and valleys for considerable distances. They have been found up to 8500 feet, where the season of warmth is short. Snow may lie for seven to eight months of the year. Much of this time the insects must be frozen solid.

The sun is the god of insects. Warm spring days start the beetles moving, when they rise and scatter to different parts. The dead bodies on the summit represent those that could not survive the long winter.

LACE COATS — The newest sweater coats are made of silk lace, woven in patterns resembling coarse chintilly. They come in delicate shades of lavender, blue and pink, and usually are worn with white.

BOMBS THREATEN, IS WARNING

British Fear Aerial Invasion by Scientific Germans

WEAPONS — GAS AND FIRE

Claim Teutons Have Invented New Explosives

By CHAS. EDWARD MORRIS, LONDON. (United Press.)

"England is today at the mercy of the first hostile power that chooses to attack her from the air."

Such is the cry of warning being insistently sounded by armament experts in the London press.

A former member of the Allied Commission to Germany has publicly declared that that country is now armed with incendiary and poison gas bombs which in one raid "would paralyze the very heart of the British Empire and bring a horrible death to most of London's citizens. The bombs to which I refer exist now, at this moment, and were war declared, could and would be used tomorrow."

"Any power may use them at any moment. So small and light are they that thousands of them could be carried by an average-sized commercial aeroplane. A fleet of aeroplanes would carry sufficient to set all London afire, past any hope of saving."

Called GRAVE — So grave is the menace alleged from the "pitiful inadequacy" of England's air force, that pressure is being brought to bear upon the government by the proponents of aerial preparedness. Editorial writers are devoting columns to the situation in the great national dailies.

Some military experts declare that, in defiance of the Treaty of Versailles, the Germans are secretly manufacturing tons of fire and gas bombs. These terrible engines of death and destruction, say officials who have examined some of those confiscated in Germany, are a thousand times more deadly than the most vivid imaginings of fiction.

They are of two kinds, incendiary and poison gas.

The incendiary bombs are in the form of metal cylinders, about six inches long and two inches in diameter. They weigh less than a pound apiece. The cylinder is made of a metal called duralumin, considerably lighter and stronger than aluminum.

The composition of this metal is closely guarded German secret. The bombs are filled with a powder called thermite, which ignites when the bomb strikes the ground. The thermite and electron then fuse together and form an incandescent mass of white-hot metal that will melt its way thru armour-plating. Nothing can extinguish it. A pinch of the powder ignited on a penknife blade caused the metal to run like candle wax.

The poison-gas bomb, even more terrible than the fire bomb, is simply a glass globe, four inches in diameter, filled with a dark brown liquid, which, when liberated, generates thousands of cubic feet of deadly gas. Escape from its death-dealing fumes, which are able to penetrate even into cellars, would be impossible.

BOAST OF BOMBS — It is stated here that just before the Armistice the German High Command openly boasted that the perfection of the electron bomb gave them the means successfully to end the war. British threats of retaliation in kind were the only deterrent to the carrying out of the boast.

"If the English secret service had not discovered that the Germans were making these bombs," say the public men now fighting for the re-establishment of England's lost ascendancy in the air, "London or Paris might have been annihilated by a single flotilla of bombing planes."

"It was only our threat to destroy a German town for every such bomb dropped in England—and the ability of our air forces to back up that threat—that gave us the whip hand."

"Now that our air force has sunk into such dangerous inferiority we no longer have that whip hand. We must lose no time in regaining it. The nation's safety demands instant action on the part of the government."

OLDEST ALUMNUS OF ANY COLLEGE

COUNCIL BLUFFS, Ia. — This year's annual alumni publication of the University of Vermont is dedicated to the Rev. G. G. Brice of Council Bluffs.

The oldest living alumnus of any college in the United States.

Mr. Brice was born 102 years ago and received his diploma from the Green Mountain University.

Throughout his life he has kept in touch with his alma mater and in recent years has sent annual messages to the graduating class.

Next, in this country, after Mr. Brice, as senior college man, comes former United States Senator Cornelius Cole of California, graduated in 1848 and now 101 years old.

OFFICER O'SULLIVAN ASKS TO RETIRE ON PENSION

Michael O'Sullivan, for 22 years a member of the Lima police force, has applied for a pension and retirement.

C. A. Bingham, city manager, announced Friday.

Owing to Officer O'Sullivan's service, Chief T. A. Lankner has formally approved the request and the matter will now go before the pension board.

IDEAL NIGHTS TO INDUCE SLUMBER

Folks who have adopted the splendid plan of refusing to become excited about prospects of unpropitious weather have been lulled into a state of added apathy by the excellent brand of conditions experienced the most part of the way during the present summer.

And there is no immediate prospect of a change from the usual order, if the current forecast may be relied upon.

The state officials tonight and Saturday, with no change in temperature.

Those who are unable to sleep during such nights as these have had, however, have been lulled into a state of added apathy by the excellent brand of conditions experienced the most part of the way during the present summer.

"FIGHT HUSBAND" IS ADVICE

Leads to Happiness, Movie Producer's Wife Claims.

LEAVES PERSONALITIES OUT

Scenario Writer Debates Cinema Problems With Spouse.

BY JACK JUNGMEYER, LOS ANGELES. (Special.)

Not many prominent women will admit fighting with their husbands.

Few will defend it as "essential to happiness."

Fewer still claim it as the foundation for affectionate respect and material success.

But Ouida Bergere, marital and professional partner of George Fitzmaurice, motion picture producer, does all three.

"Fighting is the foundation of our success," eagerly volunteers Miss Bergere. "Every picture we produce means a battle royal."

"But our scraps are not love spats. While we leave no lasting wounds, these affairs are not mild kid-glove debates."

WRITES HUSBY'S SCENARIOS — Miss Bergere, vivid, temperamental, Latin, does all the scenarios for the Fitzmaurice productions.

The Fitzmaurices have been married five years. In that time they have jumped into the \$200,000 joint-earning class. Miss Bergere's first scripts sold for \$25. Now she gets \$10,000 a story.

"I advocate," she says, "such mental clashing among married folk as stimulates without embittering."

"Many husband-and-wife partnerships, guided by over-sweet accord, drift into stagnant eddies and aren't really partnerships at all."

"In our case, it isn't a desire to impress our respective superiority, but a mighty contention for the ideas we respectively stress."

"On the side of emotion, sentiment, the far implications of sex, I feel that I have keen insight than my husband. When it comes to a static presentation, form, and the trappings of drama, Mr. Fitzmaurice has the edge."

"Where the two fields overlap is our battle zone."

"We have learned how to fight constructively. I scrap like a man. We don't indulge in personalities. And our product, as a result, is something which we agree is far superior to what either of us alone could create."

BIG ARMY FIGHTS FOREST FIRES

Heavy Toll Taken in Montana and Washington.

SPOKANE, Washn. (Associated Press.) — From the Rocky Mountains in Montana and up to one hundred miles from the Canadian border thousands of men are fighting forest fires which, with nature apparently siding with them, have, according to Theodore Goodyear, assistant state forester, rendered Washington virtually helpless before them.

Calls for help are going unheeded in many instances, he said, with the fire warden fighting the worst fires and leaving the others to burn themselves out. One fire fighter was killed yesterday when a burning tree fell on him.

The particularly hot dry weather of the past two months, which recently had culminated in severe thunderstorms, has made the forest condition extremely critical. Lightning has started many more fires than the men have been able to check and in most inaccessible places. Many hundreds of acres of fine government or private stands of timber have been burned over or are on fire. Glacier National Park, the chief Blackfoot forest and the Kaniku forest are affected.

JEANNE ANN DICKY, Mr. and Mrs. Olen Dickey, 635 N. Baxter-st., announce the birth of a daughter, Jeanne Ann, into their home Monday.

MRS. HENRY SPRINGER SUMMONED FROM LIFE

Mrs. Leenie May Springer, 49, wife of Henry Springer, 530 E. North-st., died at her home Thursday at 10:30 p. m. from pleural abscess. She was born in Elida and was the daughter of Mr. and Mrs. James Swisher.

Besides the husband, she is survived by a daughter, Mrs. Robert Seitz, Lima, five sisters and a brother. They are Mrs. John Mattingly, Mrs. Frank Johns, Mrs. Edna Detrick, Mrs. Claude Kooztz, Mrs. William McKinnon and Roy Swisher.

Funeral services will be held Sunday at 2:30 p. m. at the residence, Rev. Boroff of Elida will officiate. Interment in Greenlawn cemetery, near Elida.

FLAPPER STYLES ASTONISH HIM

Blind Man, Recovering Sight, Marvels at Dress.

By ALEXANDER HERMAN, PHILADELPHIA. (Special.)

Suddenly recovering his sight after three years blindness, Dr. Lemuel J. Deal, 81, sees only one change in the times — African Hottentots seem to be setting the fashions!

"Look at the flappers," he says with eyes sparkling. "Hair short, bobbed and crinkly. Skirts knee length and earrings dangling. Just like African wild folk!"

But the aged physician likes it. "It is youth bubbling over," he says. "The pleasantest thing in the world."

His own youth had been made unhappy by eye trouble. Despite this, however, he was graduated with honor from a medical school. During the Civil War he served with the sanitary commission. Later he became a surgeon and university professor.

For a long time he staved off the inevitable. But as he grew older his sight became worse. Finally all became dark.

"I was reconciled to await my end — in blackness," Deal says.

For three years the physician was confined to his home. Suddenly — "A thought came to me," Deal continues. "I would be cured. I took a Turkish bath and read for six hours. It seemed ridiculous. How could I — a surgeon — believe it! But the idea haunted me."

"Incredulous as I was, I had to try it," says Deal. "I was taken to a bath. There I went to sleep for six hours. I opened my eyes —

"I could see! It was a miracle — that's the only way I can account for it."

He went home alone.

"Everything seemed so strange and far off," he says. "But gradually it all came back to me. The old houses, the old faces, the old places."

"All but those young Hottentots! But I've seen so many now, that I'm used to them, too."

CITY COMMISSIONERS PLAN INSPECTION TRIP

City commissioners will start a threefold investigating tour late Friday, in an attempt to settle several important problems.

They will examine the S. Charles-st. and Lakewood-av sewer system as it has been proposed, the widening of Woodlawn-av between High and W. Market-sts and investigate sidewalk disputes along the Allentown rd., near Kenilworth-av.

Members of the commission, City Manager C. A. Bingham, Vaughn Miller, city engineer and the city solicitor will make up the party. They will meet at the corner of Woodlawn-av and W. Market-st at 5 p. m.

MANY SPEED TRAPS BROKEN UP, AUTO CLUB IS TOLD

Breaking up of speed traps, designed to fleece motorists in all parts of the state, is being reported daily to the Ohio State Automobile association, a letter to James I. Heffner, of the Lima Auto Club states.

Refund of \$1,500 fines alleged to have been illegally imposed by Justice of the Peace George French and Constable O. R. Reed, in Montgomery-co is being made thru the Dayton club and the state association. The two were operating a speed trap, it is charged, and had forced motorists to pay them money in the form of fines without trial.

MUNSEY IS HIT IN TARIFF FIGHT

Opposes Bill for Selfish Interests, Senator Says.

WASHINGTON. (Associated Press.) — Frank A. Munsey, owner and publisher of the New York Herald, was charged today in the senate by Senator Gooding of Idaho, chairman of the Republican agricultural tariff bloc, with fighting the administration tariff bill in the interest of his investments in Europe.

Asserting that Mr. Munsey had interests in steel plants, mines, glass factories, pottery plants, woolen mills, sixteen beet sugar factories and other industrial institutions in foreign lands, Senator Gooding declared it was not hard to understand why Mr. Munsey has "turned his bounds loose on those senators who are trying to protect American industries and American labor."

"Nor is it strange that he has singled out the members of the tariff bloc of the senate," he continued. "For without the steady influence of the tariff bloc, this propaganda that has been going on by Munsey, Goldman and the international bankers, would have defeated any attempt to pass a protective tariff measure at this session. So I say to Mr. Munsey and his bounds, let them come on. I will take my chance with the American farmer, the American manufacturer, the American laborer and the American people, regardless of what occupation they follow, while he hobbles with royalty and exploits the poorly paid labor of Europe."

Urging adoption of his resolution proposing an investigation of Mr. Munsey and Republican newspapers opposing the tariff, Senator Gooding told the senate that in view of Mr. Munsey's great newspaper holdings in America and his effort to prejudice public opinion against American legislation in the interest of his foreign investments, the people of the United States have a right to know all the facts relating to Mr. Munsey's foreign holdings, European industries, stocks and bonds and other securities.

CITIZENS WARNED

Blast Signals Ignored May Result in Injury.

Serious injury may befall the motorist or pedestrian who disregards signals given to warn against blasts at Bellefontaine-av and riverside where intercepting sewers are being constructed.

F. A. Froese & Co., contractors on a portion of the work are using dynamite in doing excavating work. Warning is given by a whistle and by workmen with red flags. A number of persons who have disregarded the signals have escaped without injury, so far.

"We are complying with the law," said Froese, "and warning the public before every blast. So far no one has been hurt, although signals have been disregarded. We hurt not held liable if someone is hurt thru their own carelessness."

PATIENT RECOVERING

Miss Miriam Ackerman, daughter of Mr. and Mrs. T. O. Ackerman, 151 N. Kenilworth-av., is recovering from an operation to which she was subjected for removal of her tonsils.

REED IS WINNER, OBSERVERS SAY

Holds Lead of Nearly 7,000 Votes Over Long.

219 PRECINCTS TO REPORT

Tennessee Nominates Wilson Supporter—Other Returns

ST. LOUIS.—(Associated Press.)—James A. Reed, United States senator, maintained a lead of nearly 7,000 votes over Breckinridge Long for the Democratic nomination for that office today and Mr. Long based his hope for success on the official count, being made today.

In 2,623 precincts of 2,848 the vote stood: Reed 189,321; Long 182,434.

Experienced observers of Missouri politics, who have studied the vote by counties agreed it was impossible for Mr. Long to surpass Mr. Reed's lead with the limited number of precincts yet to be heard from.

R. R. Brewster, Republican nominee for senator, will poll a plurality of approximately 20,000 over his five opponents.

A factor that has come to the fore in the Democratic senatorial contest, owing to its closeness, is the size of the absentee vote. About 1,500 national guardsmen, away from home on strike duty, may play a prominent part in the absentee ballot.

It appears likely Mr. Long will receive a majority of the absentee militiamen's votes, as many of them are from the rural districts where he showed his best strength.

Mr. Long continued optimistic over the outcome, saying the vote would be "about 1,000 either way."

"I expect the official count to add considerably to my vote," Mr. Long said, "but I do not expect any assistance from the Republican nor German element."

WILSON CHECK WINS MEMPHIS, Tenn.—(Associated Press.)—Kenneth D. McKellar of Memphis, junior United States senator from Tennessee, today held a plurality of approximately 20,000 votes over Captain Gus T. Fitzhugh, also of Memphis, on the face of incomplete unofficial returns from fifty of the state's 96 counties.

Captain Fitzhugh at midnight conceded Mr. McKellar's re-election. Now in Nashville, where he made the race on a blue law platform, ran a poor third.

In the contest for the Democratic gubernatorial nomination Austin W. Peay of Clarksville, was leading Benton W. McMillin, former governor and minister to Guatemala during the administration of Woodrow Wilson, by almost 4,000 votes.

Former Senator Newell Sanders was well in the lead in the race for the Republican senatorial nomination.

In the seventh district, available returns indicated a majority of the votes polled cast for Lemuel P. Padgett, who died in Westling Wednesday, but whose name was retained on the official ballot. Under Tennessee primary procedure the Democratic state committee would call a special primary in the event of the returns showing a majority cast for Mr. Padgett.

Rivalry between Senator McKellar and Captain Fitzhugh was especially keen, with Senator McKellar making his fight on his record in the senate and his advocacy of a soldier bonus and his support of Woodrow Wilson during his tenure as president.

Captain Fitzhugh vigorously assailed Mr. McKellar's senatorial record and opposed the soldier bonus proposal. Organized labor is generally understood to have supported McKellar who was given the endorsement of several organizations.

MISS ROBERTSON NOMINATED OKLAHOMA CITY.—(Associated Press.)—A plurality in excess of 30,000 on final returns for Mayor U. C. Walters of Oklahoma City, Democratic nominee for Governor of Oklahoma, was indicated today as the unofficial out of the balloting in Tuesday's primary neared completion.

John Fields of Oklahoma City, the Republican nominee who will meet Wilton at polls in November, was assured a majority of around 12,000 to 13,500.

Miss Alice Robertson, Republican of Muskogee, the only woman in the primary, was said to have met W. H. Hastings, Democrat, whom she defeated for re-election in 1920, in the second district.

NEWSPAPER MAN WINS TOPEKA, Kansas.—(Associated Press.)—The Republican gubernatorial race today apparently was decided in favor of W. Y. Morgan, Hutchinson newspaper man. In the contest for the Republican nomination for supreme court justice, Attorney General Richard J. Hopkins had a lead of slightly more than 2,000 over Justice Silas Porter, who has been on the supreme court bench fifteen years.

Returns from the Democratic voting remained comparatively scarce today. With a large part of the state to be heard from, Jonathan Davis of Bronson had 5,882 votes lead over his closest opponent for the Democratic gubernatorial nomination, Henderson S. Martin.

SUTHERLAND RENOMINATED CHARLESTON, W. Va.—(United Press.)—Reputation of the senate's action in seating Senator Truman Newberry was seen here today with the Republican re-nomination of Senator Howard Sutherland.

Former Congressman M. M. Neely received the Democratic nomination for United States senator by a margin of more than 16,000 votes over Mrs. William Gay Brown, his only competitor.

William Blizard, indicted for murder, and Fred Mooney, under indictment for treason and murder, both United Mine Workers of America officials, were nominated on the Republican ticket for the state house of delegates.

Of three women aspirants in the state, Mrs. Nina B. Wells, secretary to the secretary of state, was the only one to receive her nomination.

REED'S HARDEST FIGHT AHEAD WASHINGTON.—(United Press.)—Missouri will continue to be one of the year's spectacular political

CLINIC SUCCESS, REPORT SHOWS

Tuberculosis Cases Increase, Health Nurse Says.

Report of City Health Commissioner J. B. Pollock on the health clinic at St. Rita's hospital, presented Thursday night at a postponed meeting of the board of health, revealed satisfactory conditions, the health nurse concurred.

A total of 250 treatments were administered in July. Seventy cases of diseases were treated and 82 patients given attention, the report indicated. The average daily attendance was 25 on 13 clinic days.

No action is necessary with respect to additional funds to conduct the clinic, members were informed by the commissioner.

A provision in the last semi-annual health budget created a monthly salary of \$80 for the physician in charge, Dr. E. H. Hedges. Before that step was taken the clinic was on the verge of failure, because the federal government cut off its appropriation. For many weeks Dr. Hedges acted under instruction from the board to charge a nominal fee for treatments, but collections slumped to such a low ebb that in one month only \$16 was secured, Pollock declared.

Most of the supplies for the clinic are secured from the state. Various small necessities are provided by the city, the commissioner explained.

Tuberculosis required more attention from the Lima public health nurse in July than other diseases, a report read at the board of health meeting Thursday night revealed.

Fourteen cases were brought to her attention and 22 visits required. Five suspected cases of T. B. also were reported.

A total of 61 cases of disease were reported for the month, requiring 128 visits. Chronic and non-contagious diseases of children numbered 26; diphtheria, four; pneumonia, 3; whooping cough, four and scarlet fever, tonsillitis and typhoid one each. Two other cases were under observation.

Eight half-pint vacuum bottles were ordered purchased for use by milk inspectors in collecting samples for investigation. One of the requirements is that milk shall be kept at 60 degrees and there was reason to believe the temperature increased to 70 or more degrees while inspectors were carrying it from wagons to the testing place, the commissioner said.

The board adopted a resolution ordering Solicitor Paul Landis to prepare an ordinance placing the remuneration of Mrs. Ida Pay, caretaker of the detention hospital on a salary basis. She will receive \$80 per month.

LIMESTONE RECEIVED FOR DEMONSTRATION Limestone for use in demonstrations planned through the county was unloaded here Friday by the farmers who will take part in the work.

El Smith, Clarence Breese and Earl Baker obtained the lime for their demonstrations Thursday and O. A. Rankin was to haul Friday. Howard Bassett will secure lime for his farm Saturday.

MEN AND MATTERS A. M. Rodgers, 714 W. Spring-st., has been appointed a lieutenant of the 32nd Field Artillery, 83 division, reserve corps. He is ordered to report by mail to Lieutenant Colonel Charles M. Piper, Akron. William P. Turner of Ada and James S. Robinson, Kenton, are also appointed lieutenants, in the same command.

REED'S HARDEST FIGHT AHEAD WASHINGTON.—(United Press.)—Missouri will continue to be one of the year's spectacular political

SYDNEY, N. S.—(Associated Press.)—The body of Dr. Alexander Graham Bell will be laid to rest this evening from the home on Bein Breughl Mountain which he had occupied for 35 consecutive summers.

At sunset, interment will be made in a granite tomb blasted in the summit of the mountain, a part of the Bell estate.

The body will be borne to its burial place in the highest point in eastern Nova Scotia by the members of the Bell estate. There it will be laid away in its lofty lookout with simple ceremonies and to the singing of Robert Louis Stevenson's requiem:

"Under the wide and starry sky,
Dig the grave and let me lie,
Glad did I live, and gladly die,
And I laid me down with a will."

WEATHER CONDITIONS ARE PRODUCTIVE OF TYPHOID The hot weather of the summer, warm days and cool nights, has been instrumental in causing typhoid fever to make its appearance in the city, physicians state.

Eugene and Oliver Clements, 747 Arch-ave., are the first cases reported. They have been removed to City hospital for cure and treatment. The boys are four and thirteen years old.

RECRUITS FOR "Y" BOYS' CAMP REDUCED IN NUMBER Attendance at the Y. M. C. A. boys' camp near Colma will be smaller than anticipated, according to I. G. Maxwell, "Y" secretary, who will have charge. The camp opens Monday.

It was thought at least 50 would attend, but there will be only about 40. All camp duffle which the boys expect to take with them must be at the Y. M. C. A. Saturday, Maxwell said.

NEWSPAPER MAN WINS TOPEKA, Kansas.—(Associated Press.)—The Republican gubernatorial race today apparently was decided in favor of W. Y. Morgan, Hutchinson newspaper man. In the contest for the Republican nomination for supreme court justice, Attorney General Richard J. Hopkins had a lead of slightly more than 2,000 over Justice Silas Porter, who has been on the supreme court bench fifteen years.

Returns from the Democratic voting remained comparatively scarce today. With a large part of the state to be heard from, Jonathan Davis of Bronson had 5,882 votes lead over his closest opponent for the Democratic gubernatorial nomination, Henderson S. Martin.

SUTHERLAND RENOMINATED CHARLESTON, W. Va.—(United Press.)—Reputation of the senate's action in seating Senator Truman Newberry was seen here today with the Republican re-nomination of Senator Howard Sutherland.

Former Congressman M. M. Neely received the Democratic nomination for United States senator by a margin of more than 16,000 votes over Mrs. William Gay Brown, his only competitor.

William Blizard, indicted for murder, and Fred Mooney, under indictment for treason and murder, both United Mine Workers of America officials, were nominated on the Republican ticket for the state house of delegates.

Of three women aspirants in the state, Mrs. Nina B. Wells, secretary to the secretary of state, was the only one to receive her nomination.

REED'S HARDEST FIGHT AHEAD WASHINGTON.—(United Press.)—Missouri will continue to be one of the year's spectacular political

SYDNEY, N. S.—(Associated Press.)—The body of Dr. Alexander Graham Bell will be laid to rest this evening from the home on Bein Breughl Mountain which he had occupied for 35 consecutive summers.

At sunset, interment will be made in a granite tomb blasted in the summit of the mountain, a part of the Bell estate.

CLINIC SUCCESS, REPORT SHOWS

Tuberculosis Cases Increase, Health Nurse Says.

Report of City Health Commissioner J. B. Pollock on the health clinic at St. Rita's hospital, presented Thursday night at a postponed meeting of the board of health, revealed satisfactory conditions, the health nurse concurred.

A total of 250 treatments were administered in July. Seventy cases of diseases were treated and 82 patients given attention, the report indicated. The average daily attendance was 25 on 13 clinic days.

No action is necessary with respect to additional funds to conduct the clinic, members were informed by the commissioner.

A provision in the last semi-annual health budget created a monthly salary of \$80 for the physician in charge, Dr. E. H. Hedges. Before that step was taken the clinic was on the verge of failure, because the federal government cut off its appropriation. For many weeks Dr. Hedges acted under instruction from the board to charge a nominal fee for treatments, but collections slumped to such a low ebb that in one month only \$16 was secured, Pollock declared.

Most of the supplies for the clinic are secured from the state. Various small necessities are provided by the city, the commissioner explained.

LIMA, VAN WERT MEN GET CONTRACTS FOR PAVING

F. A. Frohase & Co., of Lima, was awarded a contract for construction of 2,226 feet of concrete street in Elida, by the state highway department Friday, county commissioners were informed.

Cost of the paving will amount to \$15,091.88. Concrete was selected to conform with other paving in the town.

Contract for a four mile section from Elida to Scotts Crossing was let to N. B. Putnam. Van Wert, low bidder, Commissioner A. J. Gray said. Both contracts must be completed December 15.

Letting of the Elida-Scotts Crossing section has been held up since early spring, because of the problem of eliminating grade crossings.

ROUSH WINS CASE

Former Police Chief Gets \$25 In Auto Crash Case.

Former Chief of Police O. J. Roush, who figured in an auto smashup Tuesday night, obtained \$25 judgment from Henry Bruland, Chicago, for damage to his car when an attachment suit instituted by Roush was tried before Justice Wm. H. Guyton Friday.

Bruland ran into Roush's car and was served with an attachment on his own car later, when he refused to settle, Roush alleged.

"He hit my machine," Roush told the court.

"This is no kind of justice," Bruland protested when ordered to pay \$25. "I had to keep out of this town."

"One word more and you'll stay here for 30 days," declared the court.

The defendant paid the damage and \$14.60 court costs.

MRS. CABLE'S GUEST TO SING AT ROTARY MEET

Mrs. Ralph Powers, Miami, Fla. niece of D. J. Cable, will give several vocal selections at the meeting of the Lima Rotary club, Monday.

The session will be transferred from the Norval hotel, where luncheons are usually held, to the Cable farm, where members of the club will enjoy an outing.

Mrs. Powers is visiting Mrs. J. I. Cable, mother of D. J. Cable, in Van Wert. She has been engaged for a long time in chautauque and lyceum work.

NEW AIR MAIL ROUTE WILL OPEN TOMORROW

CLEVELAND.—The first mail by air delivery from Cleveland to Cincinnati, is scheduled for Saturday.

The plane will hop off the Glenn L. Martin field in the early morning, and land in Cincinnati, as a feature of the opening of the municipal flying field there.

Postmaster Murphy will send congratulations to the Cincinnati postmaster. The New York post office will send a pouch of first class mail to Cincinnati, via Cleveland, by the same flyer.

Present air mail routes out of Cleveland are east to New York and west to Chicago. It is hoped to add a regular mail route to Cincinnati in the near future.

JUVENILE TRACK MEET PLANNED

Child Welfare Body Arranges Event for August 17.

Every boy and girl in Lima will be welcomed at the track meet to be staged August 17 by the child welfare association, either at the fair grounds or at Faurot park.

Two classes for boys and girls have been arranged. The age limits are from 8 to 12 for the first class and 13 to 18 for the second. Another for little tots has been arranged.

There will be 27 events in each class with the events for the juniors and seniors going on at the same time. This will give a two ring circus effect to the meet, Fred Wallace, director, said.

Last year there were 800 entries and so great was the satisfaction among the contestants it is expected that between 1,500 and 2,000 will be entered this year.

Three prizes for each event will be donated by local business men. Besides the prizes for the winners, every contestant will receive a treat consisting of candy or ice cream, or both.

Boys and girls have been practicing at their different centers during the early part of the summer and will go into the big meet under the guidance of their playground instructors.

No formal entries will be necessary. All that will be necessary will be for the boys and girls to be at the meet, ready to compete in the events. Entry blanks will be available then.

All contestants will assemble at Memorial Hall at 1 p. m. the day of the meet and march from there to the field. Little children will be taken to the field in special motor trucks, so they will not be fatigued.

It is expected that many of the 1921 records will be broken.

Organization of committees to handle the various features of the meet is now under way and will be announced later, Wallace said Friday.

LOREN CHIDESTER FALLS VICTIM OF TUBERCULOSIS

Loren Chidester, 47, employed at the Ohio Steel Foundry, died at his home Thursday at 10:30 p. m. after an illness of a year and a half from tuberculosis. He was born in Beaverdam.

Surviving is the widow and two sons, Ray Chidester, Lima, and Walter Chidester, E. Sparta, O. Three brothers, John Chidester, Beaverdam, and William and Jacob Chidester, both of Lima, and two sisters, Mrs. F. A. Larue and Mrs. Mary Schick, both of Beaverdam, survive.

Funeral services will be held Sunday at 1:30 p. m. at the residence, Rev. W. H. Baker, pastor of the South Side Church of Christ, will officiate. Interment in West Point cemetery.

DOZEN WITNESSES CALLED IN ALLEGED SLANDER CASE TO BE HEARD SATURDAY

More than a dozen witnesses have been subpoenaed to testify in an action for slander, instituted by Lydia Shaw, a cigar maker, residing in Eighth-st. near Central-ave., against Mrs. Ollie Crawford, 1703 S. Central-ave. The affair will be untangled before Justice of the Peace William H. Guyton Saturday.

Mrs. Crawford is alleged to have made remarks concerning the character of the complaining witness.

Among those who will testify are: George Lybolt and Minnie Lybolt, 220 E. Third-st.; Alice Zeigler, 224 E. Third-st.; Vellma Arthur, 218 E. Third-st.; Mrs. Slagle, 1123 S. Union-st.; Dr. Aldo Sibert, Cincinnati building; Russell Mayer, Don Armstrong, furniture dealer; T. R. McMillen, 209 S. Baxter-st.; E. A. Newland, S. Central-ave., and Roy Raudabaugh, 803 St. Johns-ave.

Mrs. Lybolt, 803 St. Johns-ave., denies any connection with the case. The similarity of names has left a wrong impression. She is in no manner connected with the case.

FARM AGENTS MEET HERE FOR PARLEY ON PROBLEMS

A dozen farm agents and state agricultural workers met in the chamber of commerce auditorium Friday for a discussion of the problems facing the farmers.

Circumstances made it impossible for R. F. Taber, state economist, to be present at the meeting and H. C. LaSover, director of the state extension service, filled his place.

E. P. Reed, soil and crop expert, was also present to address the farm agents' workers for farm products and exhibits at the county fairs took up most of the farm agent's time. Sessions were held in the morning and the afternoon.

FORD MINES OWN RAW MATERIAL

Digs Iron Ore Now for Use In
Auto Manufacture.

GOES DIRECT TO DETROIT

500 Tons Are Sent Daily From
Michigan, Mich.

MICHIGAN, Mich. — (Associated Press.) — Marking what is believed here to be the start of a great development program by Henry Ford, the first shipment of iron ore from Mr. Ford's mine here has been sent to River Rouge, near Detroit, for conversion into iron and steel that next will be seen in automobiles and tractors.

About 500 tons of ore is being sent daily to Escanaba by rail and then dumped on an eye boat for the Detroit district. At River Rouge the ore will be put thru the Ford blast furnaces. The only break in the procession from the Ford-owned mine to the Ford produced automobiles, is in the railroad and boat lines necessary to carry the ore. Mr. Ford has not yet attained control of these transportation facilities.

WILL EXPAND

The mine, known as the Imperial, will supply but a small percentage of the iron needed in the Ford industries but it is believed here other similar developments will follow, the manufacturer owning 400,000 acres of land in the upper Michigan peninsula and rich deposits of ore are believed by experts to underlie at least a part of this vast tract.

Operation of the Ford mine near here is as similar to the other industries carried on by the manufacturer as is permissible. Working conditions for the men are revolutionary, mining men say. When the workers come out of the mine they remove their working clothes, stand under warm shower baths, don street clothing, and then go to their homes. The wage is \$6 a day for older employees and \$5 a day for those more recently added to the payroll. The eight hour day prevails.

The rooms in which the miners change their clothing are as carefully maintained as is the locker room of a club or university gymnasium.

Mr. Ford also has changed the style of buildings at the mouth of the mine. Most mine structures are corrugated iron over wooden frames. The Ford buildings are of metal lath

and plaster. The manufacturer also is laying plans to build stucco homes for his workers. Two of these structures to go up this year.

NEW OFFICIALS OF "Y" EXPECTED HERE SOON; CAFETERIA TO REOPEN

Grace Darlington, Kansas City, graduate dietitian of the Battle-creek, Michigan, school of dietetics, will have charge of the Y. M. C. A. cafeteria under a new plan by which it is proposed to conduct the place in closer co-operation with the organization, according to Tom Pearman, general secretary. The cafeteria was sublet under the old plan.

The place is now closed and is being renovated. It will be opened again the first week in September. Victor Bird, Fairmont, West Virginia and R. T. Bird, Ft. Wayne, who will assume, respectively, the duties of industrial and boys' sec-

retaries, taking the place of S. C. Bidle and E. A. Leeson, will arrive here August 15, Pearman declared.

Bird has for six months acted as general secretary of the Fairmont "Y" and Veal has been business manager of a large camp conducted in connection with the Ft. Wayne organization.

New plans and policies to be developed in industrial and boys' work pending arrival of the two new officials.

BLUFFTON MAN RETAINED AS PRESIDENT OF JOHNS

John H. Marshall, of Bluffton, was re-elected president of the Johns organization, at the fifth annual picnic held at Fairport park, Thursday afternoon. J. H. Judkins of Delphos is first vice president; J. P. Emans, Lima, second vice president; John Kephart of Lima, secretary and treasurer.

John L. Leatherman, of Harrod, whose parents came to Allen-co in

1835, related pioneer tales. Congressman John L. Cable gave the address of welcome and the principal address was delivered by J. H. Goeke.

John Edwards of Gomer won the horseshoe pitching contest. John Montague and Miss Leona Dull were winners in races for children. John Kraft of Harrod won the elder boys' running race, John William the ball throwing contest for boys and John H. Hunter for girls.

A squad of Johns captained by John Lowry of Spencerville won the tug of war. A tack driving contest was staged, honors being won by Miss Grace Whistler. Nearly a thousand attended.

EDUCATIONAL CAMPAIGN FOR PROPER LIGHTING OF AUTOS PLANNED BY POLICE

Police will begin an educational traffic drive for the benefit of people using vehicles other than motor

cars, it was announced Friday. The drive will center principally around section seven of the traffic ordinance, which requires all vehicles to show a white light in front and a red light in the rear, during the hours of darkness.

Frequent violations of this provision of the ordinance have come to the attention of headquarters, police say. They believe, however,

that the majority of the violations the result of a lack of knowledge of the law.

Until people become acquainted with the section, police say, officers will stop every vehicle failing to comply with the ordinance, and will instruct the driver as to what he is required to do in providing lights.

When this educational drive is over, violation of the section will be

punished by arrest, police declare. The drive will begin at once.

TINSEL TURBANS

Tinsel turbans are very fashionable now. They come in rose, emerald, orange and lavender. Usually they are merely wrapped in an ingenious fashion and sometimes a drapery of tulle is added.

A DECLARATION of PRINCIPLES

By W. C. McGuffey, Business Farmer, Democratic Candidate for the Nomination
for Representative

To the MEN and WOMEN VOTERS of HARDIN County:

I am opposed to the paternalistic idea of government which seems to have taken firm root in the minds of the legislature of Ohio as reflected in laws handed down by the past several legislatures of this State. This idea is in other words, that local communities are not competent to manage their own affairs or their own local business without special dictation from the law making authority of the State of Ohio. Cities are striving for home rule in their municipalities and the same consideration for the rural sections is no more than a square deal for the people who live on the farm and in the small towns and villages.

The children of the State are entitled to a good education. The State is furnishing the means for that education and I favor the compulsory educational laws which compel the attendance of children while schools are in session. I also favor such laws as are intended for protection of the children from any employment that is dangerous or confining or that may dwarf the intellectual or physical development of the child. I believe, however, that during vacation, the parents are competent to determine in what activities their children shall engage without getting certificates from the superintendent of schools and having seven different inspectors from the State of Ohio or its political subdivisions looking after the activities of the children at that time. The inspection departments of the State should devote their time to in-

spection necessary for the public good and not in useless and duplicating investigations.

The trills and fads which have permeated our educational systems should be abolished and a system adopted in which the value of our educational work is consistent with the cost.

I believe in economy in the administration of public offices. Money collected by taxation should go in a larger measure for the uses intended and not for salary payments to useless employees. In this way the taxes may be reduced and a heavy burden lifted from the tax-payers of the County and State. I believe that local political subdivisions should make expenditures within their means of payment and should not bond themselves to the point of bankruptcy and that no laws should be enacted which either encourage or enforce such action. Remember that all your local officers are working under laws given them by the legislature. Your local senator and representative are responsible for those laws. This responsibility is not assumed by your county officials. Therefore it is necessary for the people of Hardin County to elect persons who will represent them and their interests in the Legislature with the care and consideration which the office warrants.

I have served one term in the Legislature and stand squarely on my record in that body. If it is the wish of the Democratic voters of Hardin County that I be their candidate again, I shall endeavor to justify the confidence thus shown in me.

July 29, 1922

ON July 29, 1922, the lowest prices ever quoted on U. S. Passenger Car Tires went into effect—Royal Cords included.

These new prices should give confidence to dealers and car-owners that no lower basis of

quality tire prices will prevail. Bear in mind that these prices apply to the most complete line of quality tires in the world.

Remember, too—as you read the following table—that U. S. quality has been positively maintained.

SIZES	Royal Cord	FABRIC			
		Nobby	Chain	Usco	Platin
30 x 3 Cl.	—	\$12.55	\$11.40	\$9.75	\$9.25

36 x 4 1/2 "	41.55	36.15	34.00	—	—
33 x 5 "	46.95	—	—	—	—
35 x 5 "	49.30	43.20	39.30	—	—
37 x 5 "	51.85	45.75	41.70	—	—

Federal Excise Tax on the above has been absorbed by the manufacturer

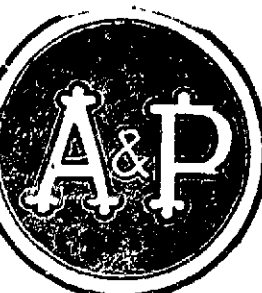

The dealer with a full line of U. S. Tires at these new prices can serve you better than you have ever been served before in the history of the automobile.

If there ever was any fancied advantage in shopping around for tires it disappeared on July 29, 1922.

PLANT'S SALE FORD URGED

Committee Minority Favors
Acceptance of Shoals Offer.

GOVERNMENT OWNERSHIP HIT

Loss on Property in Ala-
bama Is Cited.

WASHINGTON — (Associated Press) — Acceptance of Henry Ford's offer to purchase and lease of the government's vast nitrate and water projects at Muscle Shoals, Ala., is being urged by a minority of the Senate Agriculture committee. The report, submitted to the Senate, is a strong protest against the government's plan to operate the plant and operation plan proposed by Senator Norris, of Nebraska, who is chairman of the committee. The report, which was presented by Senator Norris, of Nebraska, is a strong protest against the government's plan to operate the plant and operation plan proposed by Senator Norris, of Nebraska, who is chairman of the committee. The report, which was presented by Senator Norris, of Nebraska, is a strong protest against the government's plan to operate the plant and operation plan proposed by Senator Norris, of Nebraska, who is chairman of the committee.

Ownership Opposed
The report, which was presented by Senator Norris, of Nebraska, is a strong protest against the government's plan to operate the plant and operation plan proposed by Senator Norris, of Nebraska, who is chairman of the committee. Resinol
does wonders for chafed
or irritated skins
"My doctor told me about it and if I couldn't get another jar I wouldn't give this one up for anything." That is how many people regard Resinol Ointment. It is specially recommended for eczema and other itching skin troubles, but it is also excellent as a general household remedy for burns, scalds, chafings, cold sores, pimples, boils, insect bites, etc. Resinol Soap and Resinol Shaving Soap contain the Resinol properties and no harm should be without these products. At all druggists.

THE SUPREME COURT

ocrats of Ohio:

he record made by

Judge Stanley Matthews

on the bench thru his exemplary habits, ability and courteous treat-

such as to inspire confidence in our judiciary and a source of

and strength to the Democratic party.

Judge Stanley Matthews

1 be elected to the Supreme Court, bench. We recommend him unrel-

ly to the Democratic voters of Ohio. If nominated he can be

Democrats, vote for Judge Stanley Matthews for Supreme Judge at

for the Senate to discover how such fuel and transportation emergencies can be, at least in part, avoided in the future."

The report compared in detail the Ladd and Norris bills pending in the Senate. The Ford offer as represented by the Ladd bill, the report said, "takes the government out of the fertilizer and power business."

The Norris proposal requires direct appropriation by Congress of \$64,000,000, without including any estimate for the proposed dams in the upper Tennessee river, "with no guaranteed return of either the principal or interest on same."

It was said. On the other hand, the report argued, Muscle Shoals could be developed by Mr. Ford under the Ladd bill, by a government bond issue, if desired, as the interest and

sinking fund payments made by Mr. Ford will meet interest on such bonds and retire them at the end of lease period, except during the short construction and power loading period."

AMBULANCE REMOVALS.

PLANS MADE FOR OVERSEAS WEEK

Economic Congress Will Open in Hamburg, Aug. 17.

TRADE REVIVAL IS AIMED

Representatives from Many Parts of World Expected.

HAMBURG — (Associated Press) — Preparations for Hamburg's "Overseas Week," August 17 to 27, are rapidly going forward under a board of management comprising men whose activities are known throughout the world. The board includes such well-known persons as Wilhelm Cuno, managing director of the Hamburg-America line, former Foreign Minister Wilber Simon and Max Warburg, international financier.

"Overseas Week" will constitute an international economic congress devoted to a study of the recon-

struction of Europe. Commercial representatives are expected from many parts of the world, as well as leaders in finance, shipping, and transportation, industrial and technical trades, applied arts, medical science and hygiene, science and art. Opportunity will be given to inspect displays of goods and to attend discussions of vital questions. Particular attention will be given to the means of re-establishing business connections destroyed by the war, and to steps for removing obstructions to international commerce.

An organization with these purposes in view was founded here recently by prominent economic leaders of the city under the name of the "Overseas Club." Speakers at the organization meeting emphasized the desirability of more freedom in international trade, called attention to the alleged hindrances imposed by the Treaty of Versailles and urged the importance of a live international loan for Germany.

THIEVES GET MONEY AND PAINT AT RUMSEY HOME

Thieves entered the home of T. J. Rumsey, 609 S. Scott st., and stole two one dollar bills and a can of paint, according to a complaint filed at police headquarters.

It is believed that the thief took the work of home on out as it home when the home was out.

CIVILIZATION END IN WEST NEAR?

Sir Rider Haggard Thinks History Will Repeat Itself.

SEES DANGERS IN EAST

Russian Horrors Pointed To In Forecast of Events.

LONDON — (Associated Press) — Sir Rider Haggard is of the opinion that western civilization is by no means so secure as many Westerners believe.

We have an idea that the West is going on forever," he said, lecturing at the Norwich Rotary Club, but can we be quite sure of that? Those who have studied and know the East, its enormous power of production, its simple habits of life on the land and its vastness of population which take every woman think it her duty to have children, know that it contains an enormous

potential power which must one day break out.

ROOSEVELT QUOTED
"Whether it can be curbed I do not know, but I have grave doubts I shall never forget" my friend, Theodor Roosevelt, saying when talking of Japan, "Look out for your Australia, it will be the first place to go."

once Japan secures the control of China the outlook for the Western World will be very cloudy.

The speaker said he thought our existing civilizations in the end probably would go the way of other civilizations that had preceded it. "Who would have thought a dozen years ago," he asked, "that there would be such horrors in the world as we have recently seen in Russia. Even in Ireland it has been revealed that the savage is unconsciously near the skirt of civilized man, and so always it will be."

Subject to the Decision of the Primary Election, August 8th, 1922

JOHNSON RETIRES FROM BENCH

Democratic Gubernatorial Candidate a Visitor Here.

Judge James G. Johnson of Springfield, member of the Supreme court and a candidate for the Democratic nomination for Governor of Ohio, in Lima Thursday afternoon, gave intimation that it was his intention to resign from his position as a judge of the Supreme court, but formal notice of his withdrawal was not released to be forwarded to Columbus until after he had arrived in Wapakoneta.

His resignation, Judge Johnson said, was due to a belief that if he

remained on the bench, votes cast for him as a candidate for Governor in the Tuesday primaries would be illegal. The Springfield candidate addressed the Kiwanis club at Wapakoneta.

Judge Johnson's withdrawal as a member of the bench is a very brief and formal document. It merely states that he wishes to retire and that the resignation to be accepted at once. He has been a member of the court since 1911.

For the first time in years the Supreme court will probably be solidly Republican, as it is believed, according to a statement from Columbus, it is a foregone conclusion that Governor Davis will appoint a Republican to succeed Johnson.

Several cases, it is said, will have to be retried as the result of the resignation of Judge Johnson, due to a legal requirement that constitutional questions must be decided by a full court, once a judge has participated in a case and then withdraws.

Johnson was in Lima only a short time, between trains and in conver-

are the result of a lack of knowledge of the law.

sation with close friends here was very optimistic concerning the outcome of the primary election Tuesday.

LIMA BOY IS WOODCRAFT OFFICER AT CULVER, IND.

The name of Louis S. Pierce, son of Dr. William S. Pierce, 1064 W. Market-st, this city, appears in the list of non-commissioned officers for the divisions of the Culver School of Woodcraft, at Culver, Ind., as a sergeant.

The school is organized into divisions somewhat on the plan of a scout troop and each division has four non-commissioned officers. Sergeant Pierce has been at the school for several summers and has won two medals and a number of badges for special achievement in woodwork, craft, nature study, games and sports.

Johnson was in Lima only a short time, between trains and in conver-

UTION URGED IN TRADE BODIES

Less Organization May Be Overdone, Expert Says.

S. GIFFORD IS QUOTED As Given by Telephone Company Chief.

(BY B. C. FORBES)
NEW YORK.—(Special).—"What
organization? And why is organiza-
tion?"
These questions are asked—answered—by one of the keenest
business executives in Amer-
ica, S. Gifford, the thirty-sev-
en-year-old vice-president and direc-
tor of the great American Telephone
and Telegraph Company.
Gifford's rise has been meteoric.
In Salem, Mass., he graduated
Harvard when only nineteen.
He took the course in three years.
He wrote a letter to the General
Electric Company asking for a job.
By mistake addressed the enve-
lope to the Western Electric Com-
pany.
It grabbed him.
He quickly proved a wizard at
the job, and it wasn't long before
he was given the job of organizing
the statistical department of the
company. Today it is
one of the most wonder-
ful statistical departments in the
world. The late Theodore
Vail, head of the system, was as-
tounded when he saw Gifford, then
thirty, who was chosen to direct
the statistical department of the
company.
Gifford is a young man, who earned
the reputation of one of the great-
est organizers in the world
only thirty-four. He is ac-
cused of knowing something about
the organization of the en-
tire system and the duties of executives.
He is some of the points em-
phasized by Mr. Gifford:
Organization and all the machin-
ery associated with it are not ends
in themselves, but tools for the ac-
complishment of some desired result.
Organization means order. We may
become so fascinated with the
game of organizing that we over-
do it. We may, for instance, be-
come so enamored of organization
that we know works well and
which cannot be changed, we
lose the organization.
To be a good organizer requires
judgment, ability, clearly to
define the goal sought, an analyt-
ical and certain fondness for
the work.

should have more than five or seven
people reporting to him. The ex-
ceptional man might find it quite
possible to carry on his work as a
chief executive with as many as
twelve people reporting to him. Of
another man who might also be suc-
cessful as an executive might prefer
only three. It is always a good plan
to have the ideal in mind and to
work toward it; but by all means do
not try to crowd human beings into
a theoretical scheme when they do
not fit.
"The executive must have sympathy
and tact and force, and must know when
to be firm and when to be concilia-
tory. He must not permit himself
to be overwhelmed by details. He
must always watch for actual results
—must know the difference between
real accomplishment and making a
show of accomplishment.
"An executive generally must be
also an administrator. He is expected
in part to make plans and carry
them out on his own initiative and
to assist in determining broad policies
for the business as a whole. He must
therefore have initiative, imagination
and judgment. These qualities are
inherent; they cannot be acquired.
They can, however, be improved by
training and experience.
"A good executive should not be
too busy. This is particularly true
if in addition to being an executive
he is to do some general administra-
tion work.
"A boy asked a man what sort of
work he did in his company. The
man was a high executive. He re-
plied that people come into his
office and that they wanted to know
what he wanted them to do, and
then he referred them to the
proper department. The boy said
he understood perfectly, because in
his father's business they had an
usher—he sat out in the hall—who
did just that.
An executive should always be

available to his immediate subor-
dinate. This is more important
than that he should be accessible to
people outside of his organization.
He should have some line of contact
with the men below the rank of
those who report immediately to
him. He should call for information
from anyone in his organization
from time to time—although, of
course, he should never issue in-
structions or orders except through
his immediate subordinates. By
thus calling for information from
anyone he is able to get a first-hand
knowledge of the men working in
the business and of their mental at-
titude towards their work.
"A desire on the part of one execu-
tive to bull! larger at the expense
of some other executive is very often
a cause of friction and difficulty.
With the successful executive the
problem is not the one of finding ad-
ditional work to add to his organiza-
tion but of preventing jobs which do
not belong to his organization being
assigned to it.
"He will welcome intelligent op-
position and suggestion from anyone
and be quick to surrender a preju-
dice. While he will impress his per-
sonality on his organization, he will
not insist that everything be done
his way, as this will kill initiative
and enthusiasm and make his or-
ganization a mere machine.
"I feel sure that the time used on
even used up in conferences is very
much worth while. Where large
matters are at stake and where mili-
tary authority and discipline are not
required, the only safe and efficient
way to determine policies is to con-
fer deliberately and at length. Of
course the head of the organization
must finally decide, and after de-
ciding, act with firmness and confi-
dence.
"Pride of authorship, desire to be

personally in the limelight, any ten-
dency to build up one's own criti-
cism or belittling others, are all dis-
astrous to the successful working of
an organization. After all, common-
sense and hard work, combined with
a sympathetic consideration for oth-
ers and pride in the institution will
result in each man going ahead as
far as his inherent abilities will per-
mit, in spite of the size and complex-
ity of large organizations.
"It is the day of statesmanship in
business."
(Copyright, 1922)

SUFFERED WITH SEVERE ECZEMA

In Rash. Over Twelve
Years. Cuticura Heals.

"I suffered for over twelve years
from a very severe case of eczema.
It broke out in a rash and
the itching and burning
were intense. I lost a great
deal of sleep and rest and
I was much disfigured.
From my feet to my knees
I was covered with the
rash.
"I was unable to find a cure until
I tried Cuticura Soap and Ointment.
I immediately found relief and I am
now entirely healed after using four
cakes of Soap and three boxes of
Ointment." (Signed) A. R. Kirch-
hoff, 52 E. Grand Ave., Chicago, Ill.
"Use Cuticura for all toilet purposes."
Sample Free by Mail. Address: "Cuticura Lab-
oratories, Dept. B, Malden 44, Mass." Sold every-
where. Soap 25c. Ointment 15c. and 5c. 10c. and 5c.
Cuticura Soap shaves without razor.

COURT ACTIVITY HALTED AS JURISTS ENJOY TRIP

Allen-co courts generally will be
closed during the remainder of Aug-
ust.
Judge Fred C. Becker, of common
pleas court, plans to wind up his
affairs and leave for his annual vaca-
tion sometime after August 30.
His destination and length of
stay are not fully determined.
Judges of the court of appeals
have been A. W. O. L. for some time.

THE MODERN MOTHER

faces problems far beyond those of
her forbears. She herself must be
a much more competent person, com-
bining in one individual the duties
of nurse, cook, teacher and moral
instructor. It is no wonder that
many conscientious women break
under the strain, and that others
drag out a miserable existence; al-
ways tired, and yet unable to take
a day's vacation. Such women will
find themselves benefited and their
burdens made easier by the use of
Lydia E. Pinkham's Vegetable Com-
pound, which was made for suffer-
ing women and does not fail to re-
lieve them.—Adv.

Alkali in Shampoos Bad For Washing Hair

Most soaps and prepared shampoos
contain too much alkali, which is
very injurious, as it dries the scalp
and makes the hair brittle.
The best thing to use is Mulsified
cocoanut oil shampoo for this is
pure and entirely greaseless. It's
very cheap and keeps anything else
all to pieces. You can get Mulsified
at any drug store, and a few ounces
will last the whole family for
months.
Two or three teaspoonfuls of Mulsified
in a cup or glass with a little
warm water is all that is required.
It makes an abundance of rich,
creamy lather, cleanses thoroughly,
and rinses out easily. The hair
dries quickly and evenly, and is soft,
fresh looking, bright, fluffy, wavy
and easy to handle. Besides, it
loosens and takes out every particle
of dust, dirt and dandruff. Be sure
your druggist gives you Mulsified.—

Fine for Pyorrhea,
Tender, Bleeding Gums
and Loose Teeth
is Praised by Thousands Who
Were Told This Dread Dis-
ease Was Incurable.
Pyorrhea or Rigg's disease means
loosened, sensitive teeth with tender,
bleeding, receding gums. Every
sufferer will be glad to know that at
last a Rochester, N. Y., dentist has
found a cure. This preparation—to
which the name MOAVA DENTAL
CREAM has been given and must
not be confused with ordinary
tooth paste—can now be obtained at
any first class drug store.
So speedily does it destroy the
germs that cause Pyorrhea, tighten
up loose teeth, heal the tender gums,
reuniting the gums firmly to the
teeth that professional men are
simply astounded.
The very first application will
prove of benefit, and used steadily
for a few weeks the gums will grow
healthy and the teeth become firm
in their sockets. Green's Public
Drug Store, Hunter's 3 Stores can
supply you.—Adv.

PLANS MADE FOR OVERSEAS WEEK

Economic Congress Will Open in Hamburg, Aug. 17.

TRADE REVIVAL IS AIMED

Representatives from Many Parts of World Expected.

HAMBURG — (Associated Press) — Preparations for Hamburg's "Overseas Week," August 17 to 27 are rapidly going forward under a board of management comprising men whose activities are known throughout the world. The board includes such well-known persons as Wilhelm Cuno, managing director of the Hamburg-America line, former Foreign Minister Walther Simons, and Max Warburg, international financier.

"Overseas Week" will constitute an international economic congress devoted to a study of the recon-

struction of Europe. Commercial representatives are expected from many parts of the world, as well as leaders in finance, shipping and transportation, industrial and technical trades, applied arts, medical science and hygiene, science and art. Opportunity will be given to inspect displays of goods and to attend discussions of vital questions. Particular attention will be given to the means of re-establishing business connections destroyed by the war, and to steps for removing obstructions to international commerce.

Thieves entered the home of F. F. Rumsey, 630 S. Scott street, and stole two one dollar bills and a can of paint, according to a complaint filed at police headquarters.

It is believed that the theft is the work of boys. No one was at home when the house was entered.

CIVILIZATION END IN WEST NEAR?

Sir Rider Haggard Thinks History Will Repeat Itself.

SEES DANGERS IN EAST

Russian Horrors Pointed To In Forecast of Events.

LONDON — (Associated Press) — Sir Rider Haggard is of the opinion that western civilization is by no means so secure as many Westerners believe.

"We have an idea that the West is going on forever," he said, lecturing before the Norwich Rotary Club. "But can we be quite sure of that? Those who have studied and know the East; its enormous power of reproduction; its simple habits of life on the land and its system of moralities which make every woman think it her duty to have children, know that it contains an enormous

potential power which must one day break out."

ROOSEVELT QUOTED

"Whether it can be curbed I do not know, but I have grave doubts. I shall never forget my friend, Theodore Roosevelt, saying when talking of Japan, 'Look out for your Australia, it will be the first place to go.'"

"If once Japan secures the control of China the outlook for the Western World will be very cloudy."

The speaker said he thought our existing civilizations in the end probably would go the way of other civilizations that had preceded it.

"Who would have thought a dozen years ago," he asked, "that there would be such horrors in the world as we have recently seen in Russia. Even in Ireland it has been revealed that the savage is uncommonly near the skirt of civilized man, and so always it will be."

JOHNSON RETIRES FROM BENCH

Democratic Gubernatorial Candidate a Visitor Here.

Judge James G. Johnson of Springfield, member of the Supreme court and a candidate for the Democratic nomination for Governor of Ohio, in Lima Thursday afternoon, gave intimation that it was his intention to resign from his position as a judge of the Supreme court, but formal notice of his withdrawal was not released to be forwarded to Columbus until after he had arrived in Wapakoneta.

His resignation, Judge Johnson said, was due to a belief that if he time, between trains and in conver-

remained on the bench, votes cast for him as a candidate for Governor in the Tuesday primaries would be illegal. The Springfield candidate addressed the Kiwanis club at Wapakoneta.

Judge Johnson's withdrawal as a member of the bench is a very brief and formal document. It merely states that he wishes to retire and that the resignation to be accepted at once. He has been a member of the court since 1911.

For the first time in years the Supreme court will probably be solidly Republican, as it is believed, according to a statement from Columbus, it is a foregone conclusion that Governor Davis will appoint a Republican to succeed Johnson.

Several cases, it is said, will have to be retried as the result of the resignation of Judge Johnson, due to a legal requirement that constitutional questions must be decided by full court, once a judge has participated in a case and then withdraws.

Johnson was in Lima only a short time, between trains and in conver-

are the result of a lack of knowledge of the law.

satton with close friends here was very optimistic concerning the outcome of the primary election Tuesday.

LIMA BOY IS WOODCRAFT OFFICER AT CULVER, IND.

The name of Louis S. Pierce, son of Dr. William S. Pierce, 1064 W. Market-st., this city, appears in the list of non-commissioned officers for the divisions of the Culver School of Woodcraft, at Culver, Ind., as a sergeant.

The school is organized into divisions somewhat on the plan of a scout troop and each division has four non-commissioned officers. Sergeant Pierce has been at the school for several summers and has won two medals and a number of badges for special achievement in woodwork craft, nature study, games and sports.

UTION URGED IN TRADE BODIES

Business Organization May Be
Overdone, Expert Says.

S. GIFFORD IS QUOTED

is are Given by Telephone
Company Chief.

(BY B. C. FORBES)

NEW YORK.—(Special).—"What
organization? And why is organ-
ization?"

are asked—and
answered—by one of the keenest
business executives in Amer-
ica, S. Gifford, the thirty-sev-
en-year-old vice-president and direc-
tor of the great American Telephone
and Telegraph Company.

Gifford's rise has been meteoric.
In Salem, Mass., he graduated
Harvard when only nineteen.
After three years, he was
sent to the General
Electric Company asking for a job
mistake addressed the en-
volved to the Western Electric Com-
pany.

It grabbed him.
He quickly proved a wizard at
his work, and it wasn't long before
he was given the job of organizing
the telephone department of the
company. Today it is
as perhaps the most wonder-
ful department in the
world. The late Theodore
Vail, head of the system, was as-
signed as was the late E. H. Har-
rison with long-winded people and
use reports. Young Gifford
was able to put on a small
organization of a few figures accom-
panied by a compact little chart of
which told Vail exactly how
things were going with the Bell sys-
tem.

Before America entered the
war the government desired
to have an inventory of the United
States. It was young Gifford, then
thirty, who was chosen to direct
it, and who became executive
director of the Council of National
Defense.

is young man, who earned the
reputation of one of the greatest
organizers in the world
only thirty-four, may be ac-
cused of knowing something about
organization and whereof of organi-
zation and the duties of execu-
tives. He is one of the points em-
phasized by Mr. Gifford.
Organization and all the machin-
ery associated with it are not ends
in themselves, but tools for the ac-
complishment of some desired re-
sult. In his opinion, organiza-
tion means order. We may
become so preoccupied with
organization that we over-
look the thing we are trying to
achieve. We may, for instance, be
so enamored of organization
that we forget to do the work
which we know works well and
which cannot be charted. We
forget the organization.

To be a good organizer requires
judgment. Ability clearly to
define the goal sought, an analyt-
ical mind, and certain fondness for
order. Probably no chief executive

should have more than five or six
people reporting to him. The ex-
ceptional man might find it quite
possible to carry on his work as a
chief executive with as many as
twenty people reporting to him. Of
another man who might also be suc-
cessful as an executive might prefer
only three. It is always a good plan
to have the ideal in mind and to
work toward it; but by all means do
not try to crowd human beings into
a theoretical scheme when they do
not fit.

"The executive must have sympathy
tact and force, and must know when
to be firm and when to be concili-
atory. He must not permit himself
to be overwhelmed by details. He
must always watch for actual results
—must know the difference between
real accomplishment and making a
show of accomplishment.

"An executive generally must be
also an administrator. He is expect-
ed in part to make plans and carry
them out on his own initiative and
to assist in determining broad policies
for the business as a whole. He must
therefore have initiative, imagination
and judgment. These qualities are
inherent; they cannot be acquired.
They can, however, be improved by
training and experience.

"A good executive should not be
too busy. This is particularly true
if in addition to being an executive
he is to do some general administra-
tion work.

"A boy asked a man what sort of
work he did in his company. The
man was a high executive. He re-
plied that people came into his
office and that he wanted to know
stated what they wanted to know,
and then he referred them to the
proper department. The boy said
he understood perfectly, because in
his father's business they had an
usher—he sat out in the hall—who
did just that.

An executive should always be

available to his immediate subor-
dinate. This is more important
than that he should be accessible to
people outside of his organization.
He should have some line of contact
with the men below the rank of
those who report immediately to
him. He should call for information
from anyone in his organization
from time to time—although, of
course, he should never issue in-
structions or orders except through
his immediate subordinates. By
thus calling for information from
anyone he is able to get a first-hand
knowledge of the men working in
the business and of their mental
attitude towards their work.

"A desire on the part of one execu-
tive to build up a larger staff at the
expense of some other executive is very
often a cause of friction and difficulty.
With the successful executive the
problem is not the one of finding ad-
ditional work to add to his organiza-
tion but of preventing jobs which do
not belong to his organization being
assigned to it.

"He will welcome intelligent op-
position and suggestion from anyone
and be quick to surrender a preju-
dice. While he will impress his per-
sonality on his organization, he will
not insist that everything be done
his way, as this will kill initiative
and enthusiasm and make his or-
ganization a mere machine.

"I feel sure that the time used on
even used up in conferences is very
much worth while. Where large
matters are at stake and where mili-
tary authority and discipline are not
required, the only safe and efficient
way to determine policies is to con-
sider them deliberately and at length.
Of course the head of the organization
must finally decide, and after de-
ciding, act with firmness and confi-
dence.

"Pride of authorship, desire to be

personally in the limelight, any ten-
dency to build up one's own criti-
cism or belittling others, are all dis-
astrous to the successful working of
an organization. After all, common-
sense and hard work, combined with
a sympathetic consideration for oth-
ers and pride in the institution will
result in each man going ahead as
far as his inherent abilities will per-
mit, in spite of the size and complex-
ity of large organizations.

"It is the day of statesmanship in
business."

SUFFERED WITH SEVERE ECZEMA

In Rash. Over Twelve
Years. Cuticura Heals.

"I suffered for over twelve years
from a very severe case of eczema.
It broke out in a rash and
the itching and burning
were intense. I lost a great
deal of sleep and rest and
I was much disfigured.
From my feet to my knees
I was covered with the
rash.

"I was unable to find a cure until
I tried Cuticura Soap and Ointment.
I immediately found relief and I am
now entirely healed after using four
cakes of Soap and three boxes of
Ointment." (Signed) A. R. Kich-
hoff, 52 E. Grand Ave., Chicago, Ill.
Use Cuticura for all toilet purposes.
Sample Each Free by Mail. Address: "Cuticura Lab-
oratories, Dept. B, Malden, Mass." Sold every-
where. Soap, 10¢; Ointment, 25¢; Tubes, 5¢.

Cuticura Soap shaves without razor.

COURT ACTIVITY HALTED AS JURISTS ENJOY TRIPS

Allen-co courts generally will be
closed during the remainder of Aug-
ust.

Judge Fred C. Becker, of common
pleas court, plans to wind up his
affairs and leave for his annual vaca-
tion sometime after August 9th.
His destination and length of
stay are not fully determined.

Judges of the court of appeals
have been A. W. O. L. for some time.

THE MODERN MOTHER

faces problems far beyond those of
her forbears. She herself must be
a much more competent person, com-
bining in one individual the duties
of nurse, cook, teacher and moral
instructor. It is no wonder that
many conscientious women break
under the strain, and that others
drag out a miserable existence, al-
ways tired, and yet unable to take
a day's vacation. Such women will
find themselves benefited and their
burdens made easier by the use of
Lydia E. Pinkham's Vegetable Com-
pound, which was made for suffer-
ing women and does not fail to re-
lieve them.—Adv.

Alkali in Shampoos
Bad For Washing Hair

Most soaps and prepared shampoos
contain too much alkali, which is
very injurious, as it dries the scalp
and makes the hair brittle.

The best thing to use is Mulsified
coconut oil shampoo for this is
pure and entirely greaseless. It's
very cheap and beats anything else
all to pieces. You can get Mulsified
at any drug store, and a few ounces
will last the whole family for
months.

Two or three teaspoonsful of Mulsified
in a cup or glass with a little
warm water is all that is required.
It makes an abundance of rich,
creamy lather, cleanses thoroughly,
and rinses out easily. The hair
dries quickly and evenly, and is soft,
fresh, looking, bright, fluffy, wavy
and easy to handle. Besides, it
loosens and takes out every particle
of dust, dirt and dandruff. Be sure
your druggist gives you Mulsified.—

Fine for Pyorrhea,
Tender, Bleeding Gums
and Loose Teeth

Is Praised by Thousands Who
Were Told This Dread Dis-
ease Was Incurable.

Pyorrhea or Rigg's disease means
loosened, sensitive teeth with tender,
bleeding, receding gums. Every
sufferer will be glad to know that at
last a Rochester, N. Y., dentist has
found a cure. This preparation—to
which the name MOAVA DENTAL
CREAM has been given and must
not be confused with ordinary
tooth paste—can now be obtained at
any first class drug store.

So speedily does it destroy the
germs that cause Pyorrhea, tighten
up loose teeth, heal the tender gums,
reuniting the gums firmly to the
teeth that professional men are
simply astounded.

The very first application will
prove of benefit and use it regu-
larly for a few weeks the gums will grow
healthy and the teeth become firm
in their sockets. Green's Public
Drug Store, Hunter's 3 Stores can
supply you.—Adv.

Judge Phil Crow is campaigning for
re-election and his colleagues are
believed to be fishing.

Ottawa-tp justice shops are run-
ning 50 per cent. Justice William
Guyton, is holding court, but
Justice Ernest M. Bodin is summer-
ing at Houghton Lake, Mich.

Many members of the Allen-co

bar are either on a vacation, or
plan to leave soon.

JUDGMENT WON

Judgment in the sum of \$758.82
was awarded Harry L. Dewitt
against George N. and Howard Cop-
us in common pleas court Friday.

U. S. WINNING WAR ON FAMINE

10,000,000 Russians are Fed By American Relief

200 YANKS ENGAGED IN WORK

Area Covered Put at 4,000,000 Square Miles.

(BY EDWARD M. THIERRY)
NEW YORK.—(Special).—The peak of American relief has been reached in starving Russia and the specter of famine fast is disappearing.
That is the message brought by Colonel William N. Haskell, director of the American Relief Administration. Just back from Russia to make a report to Chairman Herbert Hoover.
"We are feeding 10,000,000 people, including 3,500,000 children and 6,500,000 adults," he says. "The work, covering an area of 4,000,000 square miles, is being done by 200 Americans. Close to 800,000 tons of supplies have been distributed.
"Child feeding was begun last September 1 and adult feeding April 1. By the coming September adult relief will cease, and the feeding of children will be cut down gradually to 1,000,000.
"By that time crops will have matured, for there was much more planting last spring following the distribution by the Soviet government of \$10,000,000 worth of seed grain.
"America checked the famine, reduced deaths by starvation to a minimum and lifted the people over, especially in the Volga region. When the harvest comes our food drive will be practically over and we shall devote our chief attention to medical and sanitation work."
Out of the \$20,000,000 subscribed by the American people two years ago for Central European relief, \$8,000,000 has gone to feed Russian children, according to Haskell. Daily 2,500,000 children wait the 18,000 American kitchens. Each has plate and spoon and receives a well-cooked meal consisting of bread, cocoa and milk and either rice, beans or corn grits.
Out of the \$20,000,000 appropriated by Congress 200,000 tons of corn have been shipped into the Volga region. Needy adults numbering 3,000,000 receive 30 pounds of corn a month. This they grind, usually by primitive methods, and make into corn bread.
FEED 1,500,000 IN UKRAINE
An additional 1,500,000 adults are being fed at soup kitchens in the Ukraine—mostly refugees from the Volga region—and along the Polish border, where from 2000 to 6000 repatriated Poles pour daily thru the town Minsk alone.
"They swarmed into railway stations so fast," says H. L. Glickstein, member of Colonel Haskell's staff "that wagons had to be commandeered to carry away the dead babies were born there daily."
Barracks have been built at many relief stations for the immigration of at least 10,000 persons. This in inoculation campaign, the greatest ever conceived, is against typhoid and cholera.
At least 500,000 have been fed by food remittance packets sent to specific individuals by friends and relatives in other countries.
\$1,000,000 IN FOOD MONTHLY
The American Relief Administration distributes \$1,000,000 worth of food a month in 100,000 packets. Remittance orders are bought at \$10 each—75 per cent coming from Americans—and the food shipped in bulk, is put up at Moscow warehouses.
Each of these packets contains 49 pounds of flour, 20 cans of condensed milk, 25 pounds of rice, 10 pounds of sugar, 10 pound of lard and three pounds of tea. This is enough to keep one person alive for a month to six weeks.
Less than one-tenth of one per cent of food furnished by America has been lost thru theft. Trains of food are double-steamed and guarded by Soviet soldiers.
"It is fear of the people rather than the government that has checked banditry," says Colonel Haskell.

Two men who robbed a children's food station were caught, tried by the people of the village, and sentenced to be beaten to death. And the people's court carried out the sentence.
The 200 Americans in charge of relief work are aided by 120,000 Russians employed by the relief administration with food rations as wages.
The administration is organized like an army of occupation and even has its own postal system, couriers starting from London and covering the food-distribution area of Russia—north to Petrograd, east to the Siberian border 1000 miles from Moscow, south to the Crimea and west to the Polish frontier.
"When the Russians see Americans they get down on their knees and try to kiss our hands and the bottoms of our coats," says Colonel Haskell.

PEACE DELEGATES ASSEMBLING

Denominations Opposed to War Meet in Bluffton.

Early arrivals in Bluffton Friday for the national peace conference, which opens in the evening at 7:30, numbered 30. A delegation of Philadelphia Quakers, expected to be the largest party at the meeting, had not arrived at noon.
Delegates from religious denominations opposed to war and non-sectarian organizations for the promotion of world peace will represent practically every section of the country. The conference will continue until Monday morning.
Miss Anna Braithwaite Thomas of London will represent British peace organizations.
Dr. Wilbur K. Thomas, of Philadelphia, and Frederick J. Libby, of Washington, D. C., are among the speakers. The conference will be held in the Mennonite church. On Saturday and Sunday, morning, afternoon and evening services will be conducted.
Dr. Mosiman, president of Bluffton college, will deliver the address of welcome Friday night.
Among denominations expected to attend are Quakers, Moravians, members of the Methodist Reformed Church of God in North America and General Conference of Mennonites. Non-sectarian organizations sending representatives include the National Council for the Reduction of Armaments and Friends of Reconstruction.

DRAMATIST TO RY COMEBACK

Contract to Produce Modern "Mushy" Plays.

DIFFERENT NOW

More Independent; Says Villainy Triumphant.

LUCILLE F. SAUNDERS
Press Staff Correspondent
NEW YORK (United Press)

if you will leave this wretched
it with me, I will clothe you in
diamonds. Horrors and
places will be at your summons.

he villain thus tempted the
white heroine.
But she spurned him.

for virtue's sake," declared
of the alabaster brow, turning
the grip of the black-must
villain."

at was a long time ago, when
John J. Carter, "father of the
dramatist," was turning out
them. For the last fourteen
years, once the movies crept into
the field, he has retired to a 22-
farm in Goshen, Ill. He is now
ing a "come-back" and is
ly to have the fun of watching
very film companies that killed
own productions employing a
red people to do the work he
ished with fourteen com-
actors and stage hands in the
days.

one kinds of melodrama are
going to die," declared Carter
he appeared in New York re-
to place his name on a movie
set. "If I could take my big
effects and reward them in
-date language and put them in
hands of high-class actors, I
e a Broadway audience would
s much of a thrill out of them
e old times in Licksville used

THE DIGNIFIED
modern melodrama has to be a
d production and cannot be
together with cheap actors.
and we used to put on in the
at a dollar circuits simply
out of vogue, like long skirts
puffed sleeves."

the thirty-eight successful
dramas which he turned out in
years, Carter used the old

style prescriptions for his cast, de-
pending on steamboat explosions,
tornadoes and train wrecks for his
plots.

"As for the actors," the play-
wright explained, "the villain gen-
erally wore a vicious black-mus-
tache and checked vest. He was al-
ways after the heroine of the 'pa-
pers.' The hero was a handsome
milk-fed idiot, quite blind when it
came to observing his enemies slip-
ping up behind. Our heroine was
so mushy and soft, you could put a
cat's tail thru her. Then there was
always a snappy young soubrette to
mix things up for the villain.

Now we have to change the make-
up completely. The villain is toned
down as to his decorations, is a lit-
tle more human and has to be more
carefully worked into the plot. The
hero is stronger, but he still has to
be beautiful. As for the heroine,
rights for women worked wonders
with her. The soubrette is still
there playing the ingenuous role.
Scatter a few airplanes and automo-
biles in and you get the same
thrills."

DIFFERENT NOW
Carter can reconcile himself to re-
placing the one-horse melodrama
with the six cylinder variety, but
one thing he can't see, is elimination
of virtue.

"When I was producing plays the
public wouldn't stand for the tri-
umph of villainy," he declared.
"Clean virtue had to come out on
top in the end. Now we have al-
most made the villains heroes.

"Canned melodrama is never go-
ing to be like old times," he ex-
plained. "At the end of the start-
ling speeches, we used to write in a
pause when the audience clapped.
The actors expected that applause as
much as their salary.

"Now the most you can get out of
the spectators is some woman re-
marking 'Isn't he darling?' or
"Wasn't that cute?"

"The booming of the gallery is a
thing of the past. So also is the ac-
tor who used to turn to and help
with the scenic effects. I can re-
member when the leading woman
blew the flash torch, the hero beat
the thunder-drum and the soubrette
turned the wind-machine. Now the
union hands would walk out if such
came to pass again."

CHILDREN HANDICAP AS
MEN SEEK FARM JOBS
STATISTIC REPORT SHOWS

WASHINGTON — If you want a
job on a farm your chances of get-
ting it are slightly better than 50
per cent if you are married, and
slightly less than 50 per cent if sin-
gle, says the Department of Agri-
culture. If you are married and
have children your chances are
around 45 per cent.

The Department's statistics show
that of 1,201 farm jobs advertised
in eastern farm papers from 1920
to 1922, single men were wanted in
387 instances, and married men in
416. In 398 cases the social re-
quirements were not stated. Of the
advertisements for married men,
children specifically were not want-
ed in 54 instances. Children were
wanted or permissible in only 14 in-
stances.

Many farmers who hire laborers

THE OHIO BUTTERINE CO.
CHURN GOLD
OLEOMARGARINE

At All Grocers

have no dwellings to let and conse-
quently cannot employ married
men, the Department found. If the
farmer has a dwelling for a laborer's
family he prefers that it should be
occupied.

Autumn Dresses Are
Making Their Appearance

Yes so soon, but not one whit too soon,
new costumes for Autumn are arriving.
Naturally there is not an abundance of them
but that of course makes those that are here
all the more distinctive. And the fashion-
able woman who knows how smart it is to
appear on the boulevard in a brand new
mode will be on the qui vive to view these
new frocks, and to know just what's what
for the Fall season in silhouette, in fabric
and in garniture.

There are drapes, panels, Grecian effects,
trimmings of braid, bead, embroidery, etc.,
in black, navy and brown. In sizes from
16 to 46.

Priced

SIDESHOW GIVEN IN SENATE

Tariff Advocates Illustrate Their Arguments With Articles

MONKEY CAUSES COMMENT

Senator Watson, Chief Actor, Plans for Future

WASHINGTON — (United Press) — The Senate has entered the show business:

"Smiling Jim" Watson, of Indiana, assisted by Senator McCumber, North Dakota, and members of the finance committee, is chief "barker" and exhibitor.

During the long, tedious debates on the tariff Watson and McCumber originated the idea of illustrating the effect of tariff rates by bringing articles into the senate for exhibition.

The "Senate Sideshow" includes everything from a toy monkey to the latest design in foreign made shotguns.

Other exhibits consists of cuckoo clocks, watches, padlocks, bird cages, electric hair dryers, cabbage heads, beads, towels, handkerchiefs, knives, canes, carving sets, thermos bottles, pearl necklaces, straw hats, curling irons, pipes, suit cases, plates and blankets.

The toy monkey exhibit drew un-

usual attention, both from the Republican and Democratic sides, and afforded a packed gallery with considerable amusement.

After telling the senate of the wide difference in American and foreign prices on a long list of articles, Watson picked up the stuffed monkey and looking straight at Senator Harrison of Mississippi, declared:

"Now I come to something which will excite the risibilities of my good friend from Mississippi. He has examined it carefully and I thought he might be interested in the address that William Jennings Bryan has been making in which Bryan is attempting to convince the American people that there is nothing to the theory of evolution and that neither he nor his ancestors descended from monkey, in accordance with the Darwinian theory of evolution."

"I will lay to my friend from Mississippi," Watson continued, "that I haven't any intention at all of saying anything about the ancestry of the Democratic party and that he need not have given himself such great concern by coming over to my desk and examining this article, but had our mutual friend William Jennings Bryan any idea of the vast profit made out of the stuffed imitation of a monkey, I do not think he would have taken such great umbrage at the thought of our descent from the real simian article."

Watson has since managed three "stuffed productions." In the next show he plans to train a number of additional "senator-actors" for a pageant, with each senator carrying some foreign-made article around the chamber.

PLAYS WEST (LIMO) — Lima Short Novel Productions company team will play West Coast Sunday at 2:30 p. m. at Laura park diamond.

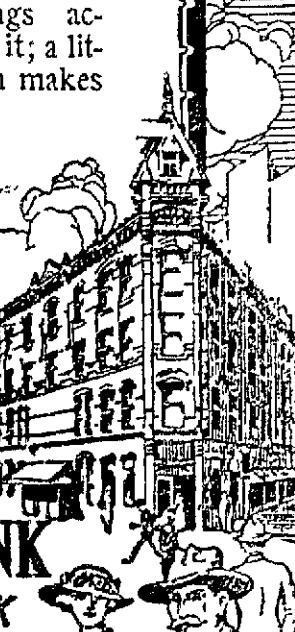

Men Who Fail

almost invariably blame it onto "bad luck." Men who succeed are equally unanimous in attributing their success to thrift. Early in life a man must decide which he is going to do when he gets old; "blame" or "attribute."

Lima's friendly bank invites you to open a savings account. A dollar starts it; a little determination soon makes it a pleasant habit.

—Introducing the New Mode
in Frocks for Fall

The First Fall Frocks hint of draped lines
with the clever Russian side-closing
unique sleeves — panels — and untrimmed
styles, more than compensated for in the
decorative fabrics of the Frocks them-
selves, which include matelasse effects.

Fall Frocks in all their loveliness are here in an endless
variety of styles—in all the beautiful Silks and Woolen
fabrics—Featuring the new long-line Silhouette—Long
Skirts—Panel sides—some elaborately Braid and Bead
trimmed. The styles are so different—so alluring that every
woman will enjoy seeing them.

Conservatively Priced
\$16.95 to \$100

We are featuring for Fall—
Dress For Women Who
Require Large Sizes

HAND MADE FROCKS FROM PARIS —
Each An Individual Creation

Frocks—They come from France—every style is exclusive—Elaborately trimmed with beads in most un-
usual designs—Styles and colors for Dinner and Evening wear.

\$59.50 to \$125

New Fall Suits
Are Here—

"Vive la Flapper" — says Paris — For has
she not taken from the Flapper, the youthful
swing of her suit? New Fall Suits all have a
youthful quality. Skirts are longer — Fabrics
have a surprise for you—

Suits of every type, featuring especially the Long-line Jacket
in the severely Tailored mode—and Jaunty Fur-trimmed Suits,
particularly Three-Piece effects, are here in a most wonderful
collection. Never in many seasons past have we seen such hand-
some Suits as these—Suits that are so different—so departed
from the ordinary, that one single glance will cause you to pro-
claim their wonderful style.

The collection is complete in sizes for Misses and Women—also a
great variety of stout sizes—

Conservatively Priced

NEW FALL COATS AND WRAPS
—AT SPECIAL AUGUST PRICES—

"The loveliest wraps I have ever seen," said one woman who was choosing between a Luxurious Hud-
son Seal Wrap and a beautiful Coat of Marvella, with a large Collar of Squirrel.

Fashion has turned many a clever trick on the Wrap for Fall. She has evolved great square armholes—
tapering sleeves—cape backs that swing to the hip-line—crushed chin-chin collars and small cuffs of fur.
There are hundreds of garments in both Fur and fine cloths here awaiting your choosing—Assortments
that will delight you beyond expression.

THOSE WHO PURCHASE IN AUGUST WILL RECEIVE A SPECIAL PRICE CONCESSION

SIDESHOW GIVEN IN SENATE

Tariff Advocates Illustrate Their Arguments With Articles

MONKEY CAUSES COMMENT

Senator Watson, Chief Actor, Plans for Future

WASHINGTON — (United Press) — The Senate has entered the show business.

"Smiling Jim" Watson, of Indiana, assisted by Senator McCumber, North Dakota, and members of the finance committee, is chief "barker" and exhibitor.

During the long, tedious debates on the tariff Watson and McCumber originated the idea of illustrating the effect of tariff rates by bringing articles into the senate for exhibition.

The "Senate Sideshow" includes everything from a toy monkey to the latest design in foreign made shotguns.

Other exhibits consists of cuckoo clocks, watches, padlocks, bird cages, electric hair dryers, cabbage seeds, beads, towels, handkerchiefs, knives, canes, carving sets, thermos bottles, pearl necklaces, straw hats, curling irons, pipes, suit cases, plates and blankets.

The toy monkey exhibit drew un-

usual attention, both from the Republican and Democratic sides, and afforded a packed gallery with considerable amusement.

After telling the senate of the wide difference in American and foreign prices on a long list of articles, Watson picked up the stuffed monkey and looking straight at Senator Harrison of Mississippi, declared:

"Now I come to something which will excite the risibilities of my good friend from Mississippi. He has examined it carefully and I thought he might be interested in the address that William Jennings Bryan has been making in which Bryan is attempting to convince the American people that there is nothing to the theory of evolution and that neither he nor his ancestors descended from monkey, in accordance with the Darwinian theory of evolution."

"I will say to my friend from Mississippi," Watson continued, "that I haven't any intention at all of saying anything about the ancestry of the Democratic party and that he need not have given himself such great concern by coming over to my desk and examining this article, but had our mutual friend William Jennings Bryan any idea of the vast profit made out of the stuffed imitation of a monkey, I do not think he would have taken such great umbrage at the thought of our descent from the real simian article."

Watson has stage managed three "tariff productions" in the next show he plans to train a number of additional "senator-actors" for a pageant, with each senator carrying some foreign-made article around the chamber.

PLAYS WEST CALIO
Lima Short Novel Products company team will play West Calio Sunday at 2:30 p. m. at Faura park diamond.

Men Who Fail

almost invariably blame it onto "bad luck." Men who succeed are equally unanimous in attributing their success to thrift. Early in life a man must decide which he is going to do when he gets old; "blame" or "attribute."

Lima's friendly bank invites you to open a savings account. A dollar starts it; a little determination soon makes it a pleasant habit.

OPEN LETTERS

To Candidates

BOYS: My good right hand has been twisted, rung, squeezed, crushed and shaken. In fact it is in such condition that rheumatism would seem like a pleasure. And you are responsible. I have appreciated the friendliness you have shown in the pre-primary days. May you always be as friendly in the future, but alas, I fear not. I have been thru campaigns before.

LIMA BEANE.

To Restauranters

FRIENDS: An authority informs me that in general, living cost is one-third higher than before the war. He, of course, hasn't dined recently in some Lima restaurants. If he had and based his information on the way it hit his pocketbook, his statement probably would have read something like this: "Living cost is as high as at the peak during the war."

LIMA BEANE.

To Chief Lanker

DEAR TOM: I have heard the complaint that persons who do not understand the system of police headquarters often are needlessly detained at the station when they call to make a report or complaint. Many ask to talk to the chief and are told merely that he is not in, if such is the case. It is often that they lose considerable time waiting for your return, believing you are the one they should see.

Why not have a small sign made to direct them to the proper place to transact such business? It would help.

LIMA BEANE.

To Friends "John"

DEAR BOYS: Was mighty glad to see so many of you at my Faurth Park on Thursday, on the occasion of the fifth annual reunion of those whose parents bestowed upon them the name of "John."

Glad to welcome you anytime. Come again.

LIMA BEANE.

To H. L. Breckenridge

DEAR HARRY: As head of the fuel committee of my city, organized for the purpose of endeavoring to secure assurances of ample coal supplies for the industries and domestic users of my city, I do not envy you your task.

It is a big problem, with fuel conditions in such a chaotic state, but I trust that you and your co-workers will succeed in a manner equivalent to your expectations.

LIMA BEANE.

To T. P. Pearman

MY DEAR TOM: Your former fellow-citizens in Piqua paid you a nice compliment in journeying to my city Thursday evening, for the purpose of celebrating "Tom Pearman Day."

It is an indication that your standing in the Miami-co city was A-1 and augurs well for your success as general secretary of my Y. M. C. A.

LIMA BEANE.

To Mrs. James Pillars

DEAR MRS. PILLARS: As curator of the Allen County Historical society, I have been informed that numerous mementoes and curios are being placed in your hands, to be added to the list of those housed in Memorial Hall.

My only regret is that more persons do not realize the value of contributing to the collection, to be maintained for future generations to look upon in years to come, as reminders of pioneer days in my country.

LIMA BEANE.

'ROUND LIMA HOUR BY HOUR

WITH APOLOGIES

BY OH. OH. JACKENRIM
A Page from the Diary of An Antiquated Reporter: Up at dawn, donning bathing suit under my tweeds.

ABE MARTIN

Th' girl in a gingham dress needn' worry about not havin' any swell clothes as far as we're concerned. We kin thump 'em, an' lift 'em, an' squeeze 'em, but we can't tell blamed thing about 'em till it's too late.

Thence for a brisk walk to Johnson's swim. And a before breakfast dive. Feeling fit, back to radishes and oatmeal.

Out, waving to Virgil Cook, the handy man of Chief Lanker's gaol. Virge is a two-fisted guy, handling a typewriter and a galling gun with equal ease. Mike Laughlin, the knickered switchman this day, starting on his truck. Avoided the poste, reaching the office via the old car barns. Took a good whiff of 'Ottawarotus ozone, thence to the news factory.

All the morning at my scivening; thence to checking leaks, as we have fallen truly on evil days. What with state's rights gone and city rights without curb, my poor real estate is eating me up. 'Phoned Jake and asked him the cost of a double-room at his new Hotel de Sinclair. I got him the first time, so that's over.

Down to Eli Bryantlinger's cafe for lunch, and to study types. I wonder how that grisly old codger gets that way. To my knowledge he has been doing it every since The Maine was in blossom on the public square; and Tom Sullivan was selling Morlein's at \$1.50 the case, delivered. Pay when you have it.

baseball. If it hadn't been for him Ote Davis would have buried the remembrance neons ago. Into the delivery wagon for an airing on Prospect-av. And Deetepi trains running as th there were no strike.

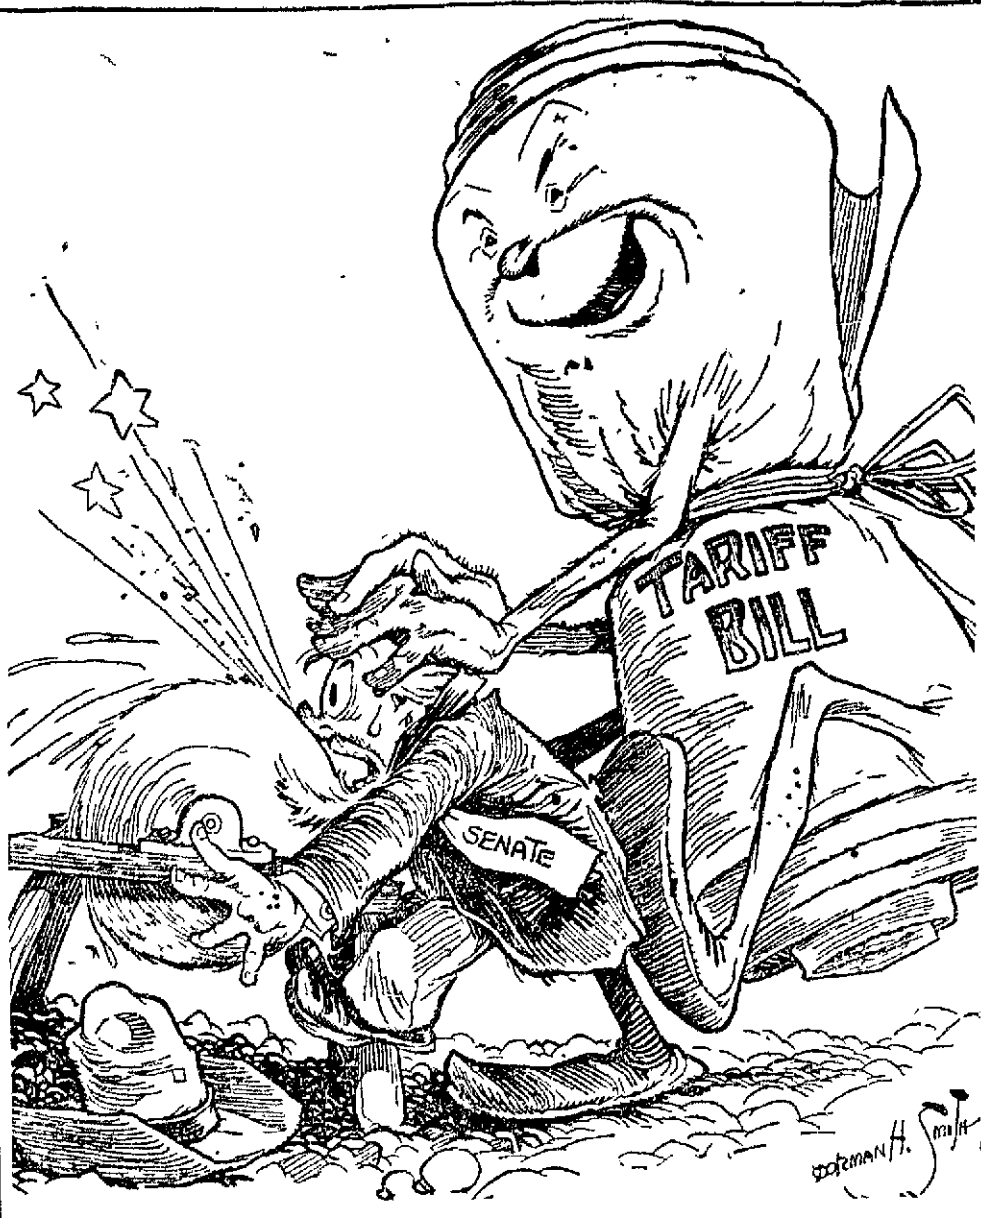

The city hospital with its pretty nurses. Having nothing on us, for our Miss Zimmerman guessed Florence Nightingale as the name of the unknown nurse. And won the Hotsup electric iron at St. Rita's lawn fete. So, congrats to Dr. J. R. Johnson on his third successive son.

Dined at home, with my wife, poor wretch, all the day at this and that. Mending and fixing of things against Dee's school wardrobe. She now in Paris. Window shopping in front of Jenny's and the Worth lair on the Rue de la Paix.

In the evening, strolled over to the Club for some scandal talk with the superfolk. Albert, nothing of note abroad. All seeming being on good behaviour. The gin must be out. Had Bill Harper draw two from cold storage, and using raisins and sugar, fooled myself over some Pimento cheese sandwiches.

Sat long on the porch, seeing Jessie Rouseup, central operator at Henry's Timmerman factory, drive by in the moonshine. And so, to bed.

SELF-IMPOSED FRANKENSTEIN

To F. E. Harman

MY DEAR FRANK: Sale of your splendidly stocked furniture store to former Lima boys removes from active business life in my community one of its most prominent characters.

I am referring to you. I rejoice that you have been successful; that the magnificent business block in the new retail district stands as a monument to your business sagacity. May you find in your future years the contentment and pleasure that should be the reward of those who contribute in a big way to their communities.

LIMA BEANE.

To Reunion Parties

DEAR FRIENDS: This is the favorite season for the holding of family reunions. I am well pleased that such a large number of these events are being arranged. It is an indication that the spirit of fraternity and good will is not lacking.

It is proper that the clan of all families should enjoy an assembly at least once each year.

LIMA BEANE.

To H. J. Ridge

DEAR HUGH: Action taken by the Farm Bureau, under your direction, to bring about an increase in farm exhibits at the county fair, is a most commendable thing.

The time should never be permitted to come when the agriculturists and stock raisers lose interest in the annual exhibit.

LIMA BEANE.

To C. A. Arganbright

DEAR CHARLEY: Congratulations on the success of your endeavor to secure outstanding educators as instructors in the teachers' institute for Allen-co to be held in my city, beginning August 23.

LIMA BEANE.

To Some Business Firms

SOME of you, too many it appears to me, are in the habit of leaving doors in sidewalks in front of your places open. Will you be kind enough to close them when it is not necessary that they be open? You can remove a condition that may cause serious accidents in this way.

LIMA BEANE.

POEMS YOU WILL ENJOY

By BERTON BRADLEY

SURE!
The coal strike drags its length along—
We pay for it
The railroad strike is going strong—
We pay for it
The tariff's being boosted, too,
To raise a larger revenue,
And you and I and you—
We'll pay for it!

The shipping board deficit grows—
We pay for it
And Congress talks—and goodness knows—
We pay for it
The cost of living's on the rise,
Which need occasion no surprise,
Since, as you doubtless will surmise—
We pay for it.

When Capital or Labor wins—
We pay for it
No matter now the row begins—
We pay for it
The Dear Old Public—which is us—
It has been, is, and will be thus—
We pay for it!

HEALTH TALKS

Common Sense Ways to Keep Well
ECZEMA AND ITS CURE

(BY DR. R. H. BISHOP)

Eczeema is the commonest of all skin diseases. It is in the skin crying out, either from neglect or bad treatment.

It is not contagious. Sometimes it is acute, but more often it is chronic. Invariably it is attended by itching, and sometimes by loss of appetite.

The skin like other parts of the body, depends on the whole system for nutrition, and when the system fails to give this nutrition there is an eruption on the surface. When the skin is not properly nourished every slight irritation is liable to produce eczeema.

Eczeema may occur on any part of the body or even cover every inch of the body and in such cases treatment is very difficult.

In treating it the cause must be found and removed. If possible, moisture and air must be avoided and protection must be furnished by means of ointments, dusting powders and bandages, but seldom by lotions and watery fluids. The bowels must be kept open and attention should be paid to the diet, excluding and fruits, shell fish, tomatoes, and any other irritating food. Pure air, combined with the proper kind of exercise, promotes the functions of the skin and assists in keeping the blood in good condition.

A person suffering from eczeema should avoid tub-baths and use soap and water sparingly. Bran added to the water, or baking soda, in the proportion of one teaspoonful to the basin of water, is helpful. The water should always be soft. The use of water on the face should be followed by the immediate use of cold cream.

es are sought in at- light, as follows: ish and chart a de- mental airship route.

flight approximates 3085 miles, di- vided into 12 legs. The route se- lected, and distances between sched- uled stops, are:

From Langley Field to Washing- ton, 130 miles; to Akron, O., 260 miles; to Dayton, O., 172 miles; to St. Louis, 320 miles; to Little Rock, Ark.—the longest single leg—360 miles; to Dallas, Tex., 300 miles; to San Antonio, 250 miles; to Marfa, Texas, 350 miles; to El Paso, 175 miles; to Nogales, Ariz., 275 miles; to Yuma, Ariz., 240 miles, and to Ross Field, Arcadia, Cal., the term- inus, 250 miles.

NOV TESTING C-2

The weather bureau will co- op- erate in supplying the balloons with detailed advance notice of weather conditions ahead, and emergency stocks of supplies and parts will be held at strategic points along the route.

A number of test flights are be- ing made preliminary to the flight in September. Recently a flight was made to New York and back, with a crew composed of Captain Will E. Kepper, Lieutenant E. S. Moon, and Staff Sergeant August D. Albrecht.

This flight was attended with many hazards, due to thick fog which hung over New York when the airman ar- rived there. But, after being lost for two hours, the crew regained their bearings, and made the return trip without mishap.

The C-2 has been one of the most dependable lighter-than-air ships the government has ever owned. Originally built for the navy by the Goodyear Tire & Rubber Company, it was later transferred to the army for use as a training ship and for aerial bombing practice.

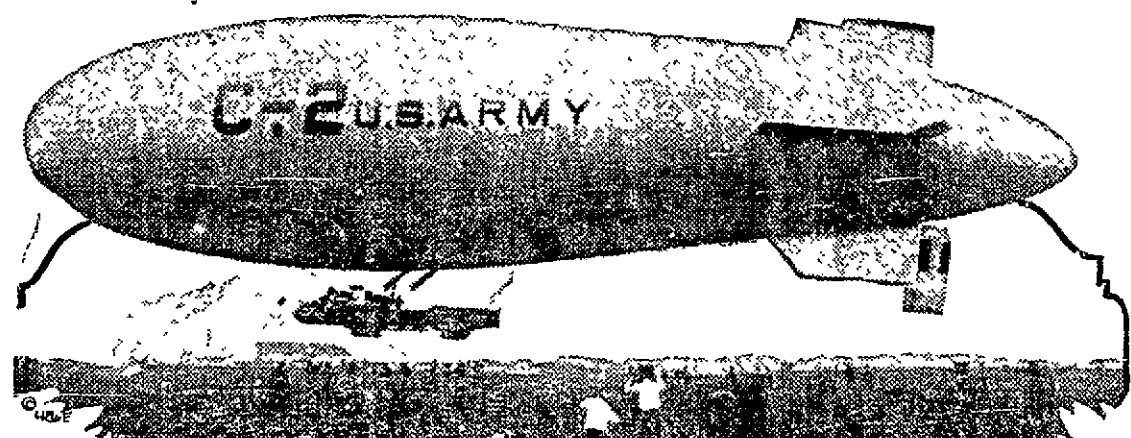

The original car has been sup- planted by one designed especially for carrying and dropping bombs. As a bombing test ship the C-2 has been stationed at the Ordnance Prov- ing Grounds, Aberdeen, Md., until orders were given to put her in

Albrecht; the C-2 leaving her hangar (upper right); and a view of the huge dirigible leaving the ground (lower).

FORGERY CHARGED TO VAN HORN

Said to Have Signed False Name to Fifteen Dollar Check

A second charge arising from the alleged passage of worthless checks by C. H. Van Horn, 29, of 430 S. Metcalf-st., was filed Friday in criminal court against the man, who is being held at police station for lack of bond.

Harry Grande, traveling salesman for the Spring Valley Condiments Co. of this city, signed an affidavit Friday, charging Van Horn with forgery.

This second charge was filed, Grande says, after he learned that the man was being held at headquarters.

Grande charges Van Horn with having passed a check for \$15 on the

BLIND MAN IS GOOD GARDENER

VANCOUVER, B. C.—(Special)—Distinguishing seeds and plants thru a highly cultivated sense of touch, Arthur Gray, 66 years old, and totally blind, is a successful

garden here. Gray lost his sight in a foundry accident a few years ago. Undaunted, he turned to gardening. He taught his hands to do the work of his eyes, telling him plants and their progress by feel. To guide himself about the garden, he set up

guide wires. Not only is Gray a gardener, but also a carpenter. Unaided, he has just built a glass-enclosed green- house for his garden.

Gray

Charge Possession of Liquor to Man Taken in Raid.

Henry J. Sauer, 336 N. Main-st., was arrested shortly after noon Friday, charged with possession of illicit li- quor, when a squad of plainclothes- men raided his soft drink parlor.

A quantity of liquor in two quart bottles was confiscated by police, who declared that Sauer attempted to de- stroy it when they entered the place.

Bond of \$1,000 was provided and Sauer was released, to appear in criminal court Saturday morning.

Tropical Fruit Co., Toledo, January 11 of this year, for which he was forced to stand good. He produced the check, which was for \$15, in criminal court when the affidavit was filed. The check was signed by J. E. Van Horn, in a handwriting that is alleged to be Van Horn's.

Grande declares that he met Van Horn in Toledo and struck up an acquaintance with him, of which Van Horn took advantage a short time thereafter, he says.

Shortly before Grande appeared to file charges against Van Horn, word from the Hoeffler & Hiatt firm of haberdashers, and Michael's clothing store informed police that they, too, had worthless checks issued by Van Horn.

Police say that Van Horn is also wanted in Norwalk, Marion and Dayton, on similar charges.

Van Horn waived preliminary hearing on the charge of forgery, and was bound over to the grand jury. Judge Motter fixed his bond at \$500.

He was first arrested Thursday morning, while waiting for a Pennsylvania train. At the time, he had a ticket for Kansas City, and a trunk check, in his possession. A complaint from Carl Snook, news dealer, led to

his arrest. Snook claimed Van Horn gave him a worthless check for \$15. When arraigned on this charge, Van Horn pleaded not guilty.

CITY GETS \$5,572 AUTO TAX FOR MONTH OF JULY

Payment of the city's proportion of the auto license tax for July to Josiah Jones, city treasurer, was made Friday by C. R. Phillips, county auditor.

The amount the city receives for the month is \$5,572. The money will be used in maintenance and street repair.

FOR THE TODDLER

Overalls of colored sateen are very smart garments for the toddling child. Sometimes they have embroidered pockets, and sometimes a little yarn or coarse thread is used to illustrate some Mother Goose tale on the front of the garment.

LITTLE FOLKS ENTERTAINED AT SOLOMON HOME

MISS JULIA F. SOLOMON, 238 E. Jameson-ave., extended delightful hospitality, Friday afternoon, when she entertained at a birthday party for her young daughter, Harriet Louise Solomon, who has reached the age of four years.

Twenty-four young boys and girls were bidden to the Solomon home, where they played games on the lawn. In the late afternoon, they were invited to the dining-room, where a repast, such as delights the childish eye and appeals to the palate, was spread before them.

Pink and white blooms, from nature's choicest gardens, adorned the table and a big birthday cake, bearing four lighted tapers, occupied the center of the table. At each place was a child's toy, favors of the occasion which the children proudly carried home with them.

Little folks included in the guest list for the birthday celebration were: Jack and Joan Schoonover, Bobbie and Mary Jane Hix, Junior Brady, Harvey Allen Crider, Jr., Donald Harris, Scott and Paul Barnhardt, Lester Asber, Junior Krueger, Mary Jane and Tommy Gregg, David Schnitzer, Paul Kockey, Margaret and Josephine Steiner, Betty Mikeell, Dorothy Jean Langhorst, Jane Matthews, Barbara Brown, Beaumont, Texas, Billy Blum, Caroline Levy and Junior Solomon.

Miss Edith Simpson, 1334 State-st., is entertaining Miss Paula Doering, Chicago.

Mr. and Mrs. George Austin and children, Painesville, who are motoring to Denver, Col., arrived in Lima, Tuesday, and are guests of their relatives, Mr. and Mrs. Rolla M. Kent, 810 W. High-st., their daughter, Miss Ella, head nurse at a hospital in Pontiac, Mich., accompanied them here.

Dr. E. C. Yingling, and Mrs. Yingling, 720 State-st., extended the hospitality of their home to members of their five hundred club, Thursday evening.

The club played in rooms made fragrant and beautiful by the addition of garden blossoms of various colors, adding a touch of beauty to the natural setting of the Yingling home and the artistic interior furnishings.

Supper was served at 10 o'clock before the company departed for their homes.

Members of the Polly Plum club motored to McBeth's park, Thursday, where they enjoyed a delightful day at that watering place. A picnic dinner was served and water sport, formed diversion following. In the happy party were Mrs. John Cogart, Mrs. Mary Simons, Mrs. Charles Lemming, Mrs. O. J. Morrison, Mr. and Mrs. C. M. Puchtap, Miss Rhea Weaver, Miss Fanny Lemming, Mrs. J. Lemming and son, Charles, Mrs. L. Helzel and son Paul, Mrs. Carl Palmer and children Richard, Philip, Mary and Maurice, Mrs. R. E. Weaver and children Eugene and Margaret, Mrs. Lulu Kraft and daughter Charlotte.

Mrs. William E. Bayly and daughters, Mary Elizabeth and Josephine, 1707 Lakewood-ave., returned from a stay of several weeks at northern Wisconsin lakes, Thursday. They were called home by the critical illness of Mr. Bayly, who was subjected to an operation at St. Rita's hospital.

Mrs. D. L. Sherwood, 603 W. North-st., has returned from a visit in Columbus.

Mrs. J. S. Sheely, 615 E. Elm-st., is entertaining her great aunt, Mrs. Fettes, Denver, Col. Mrs. Sheely has been entertaining, during the week, in honor of the presence in her home of Mrs. Fettes, Mrs. J. Fooman and children, Lena, Ohio; Mr. and Mrs. Wellington Wallace, Bellefontaine, and Mrs. L. W. Shumate, Port Huron, Mich. Mrs. Fettes, who is 81 years of age, is expecting soon to travel back to her home in Colorado.

Beecher Moko and son, John, 333 W. Spring-st., have returned from Lakeside, where they were with Mrs. Moko, who will remain for some weeks longer, before returning to Lima.

Mrs. Moko, who is president of the City Federation of clubs, sends back a request that all Lima clubs be affiliated with the state federation, send a list of correct names and addresses of its officers to Mrs. James Fleming, 3722 Logan-st., Cleveland.

The information is necessary in making arrangements for the coming meeting of the Ohio State Federation of Women's Clubs.

The Women's Missionary Society of Trinity Methodist church is planning for a homecoming and picnic, in the form of a covered dish dinner, at Faurot park Wednesday, August 9 at six o'clock. Mrs. Edward Kretze, Mrs. F. M. Allen and Mrs. Lillian Gottlieb are to be in charge of the social. An interesting program is being arranged by a committee composed of Mrs. O. G. Plante, Mrs. Rose Mullen and Mrs. Charles Kraft. Those taking part in the program will be Mrs. L. H. Rogers, Mrs. C. Kraft, Mrs. Winona Porror and Virginia Porror, Mrs. John Keith and Mrs. Fred Bisanantz. All members may come and bring family or friends.

EARRINGS-COSTUMES IN THEMSELVES

SOME TYPES OF EARRINGS NOW IN VOGUE
(By MARIAN HALL)
An organ of sense, the ear has always had a definite value. Recently, however, its purely utilitarian function has been greatly overshadowed by its decorative one—that of providing a home for the earring.

Once a decoration, the earring has become as necessary as shoes or hair. It is the characteristic jewel of the day.

By the careful use of this trinket, a woman may have as many lives as a cat and as many costumes as modes. If she is round-faced, she may achieve the effect of length by the addition of long, dangling earrings.

Mrs. Milton A. Craig and daughter, Mrs. Mildred Craig, 1201 Bellefontaine-ave., have returned from Kansas City, Mo., where they spent a month with Mr. and Mrs. Frederick S. Craig.

Mr. and Mrs. Virgil Knickel, 702 W. North-st., will leave Sunday for a stay of a fortnight in New York City and at eastern points.

Mrs. Ethel Neff, Chicago, entertained most charmingly Wednesday evening, a coterie of friends at the home of her grandparents, Mr. and Mrs. W. E. Gallant, 239 S. McDonnell-st., where, with her mother, Mrs. J. F. Neff, she is a guest.

Mrs. Mary Jolley and Miss Constantine Mayer favored with piano solos and the hostess treated the assembly to violin numbers. Miss Neff is a talented musician.

Hours following were devoted to "honey," in which Miss Lydia Buchanan was successful and was awarded the trophy. A delicious supper was served before the guests departed, Miss Neff being assisted by her mother in serving.

In the group were the Misses Evelyn Johns, Helen Nungesser, Marie Gallant, Mary Jolley, Constantine Mayer, Lydia Buchanan, Meredith Shifferly, Lois Stadler and Esther Plummer.

The Misses Marian Cable and Judith White joined school friends in town near Columbus and all enjoyed a picnic and outing in the Capital City the middle of the week.

A company of friends surprised Mrs. Walter Clevenger, 1484 Norval-ave., Thursday evening, the occasion being the anniversary of her birth. A birthday cake, with the exact number of candles, revealing the number of milestones in the life of the hostess, occupied the center of the table. Music and games were enjoyed and a delicious supper was served. The decorations and supper were carried out in the most dainty colors. Mrs. Clevenger was given a handkerchief shower.

In the company were Mrs. William Kincaid, Mrs. Charles McElfresh, Mrs. C. E. Reiter, Mrs. W. B. Dillon, Mrs. Ralph Dawson, Mrs. B. P. Twining, Mrs. Forest Franz, Mrs. G. Wolfe, Mrs. Thomas Hubble, Mrs. Daisy Parlette, Mrs. Anna McGinnis, Mrs. Mabel Hofner, the Misses Iloa Dawson, Maudine Hubble, Dora Long, Catharine Wolf, Avonella Ritchey, Margaret Spain, Mrs. E. M. Long, Miss Velma and Harris Clevenger, M. M. Long, W. L. Clevenger, Leroy Clevenger, Freeman Estes and Arthur Clevenger.

Mr. and Mrs. M. Summers, Jr., and children, 332 W. Wayne-st., have returned from a delightful vacation trip by motor to Detroit, Port Huron, Port Austin and Port Hope. They were absent five weeks.

The Rev. Warren L. Steeves, pastor of the First Baptist church, Mrs. Steeves and their children, 1027 Faurot-ave., returned Friday from an extended motor trip thru the east. They spent the most of the time at Chateaugay Lake, N. Y. The Rev. Mr. Steeves conducted services two Sundays in the Utah Baptist church, Monticell, Can.

SOCIETY EVENTS

of inconsequential metals or compositions made into attractive shapes. Red ones are very popular. So are black and green.

Green has a way of being becoming to most women, so jade is probably the most popular stone of all. Lapis and turquoise matrix are effective on a blonde.

CORAL earrings are lovely indeed. Sometimes a carved rose of coral is used with a cascade of pearls to give the desired effect. Medallions of highly colored stones and enameled effects, arranged like miniature stained-glass windows, are pleasantly medieval in feeling.

There is no length, breadth, or thickness they may not attain, provided they do not put too great a strain upon the earlobe. After all, nature has its limitations.

Study your face and then outfit it properly with an assortment of earrings. You won't find how much your ears show if they reveal that you've mastered the wearing of the ring.

SUSIE SMART'S ADVICE

Dear Miss Smart:
I AM coming to you for help. I am a girl of 19, and stopped going to school when I was only 13 years old. Now I have decided to be a stenographer. Is it too late for me to begin, as I have not been to school for so long? I was in the sixth grade when I quit. Can I go to night school for that work, and what would it cost?

About how long would it take to complete a course for stenography? Thanking you, I am
MAT
It is never too late to acquire an education, and you will find the stenographic branch a fascinating and interesting one. However, you will have to improve your general education, especially your spelling. This can be accomplished either by studious endeavor at home, or at night school. Why not take the general night school course when it opens in the fall? The cost is but a few dollars and is returned to the student if he or she proves faithful. The more rapid way would be to go to business college, where, in a period of six months or less, you could master both stenography and the general branches. The head of the business college in this city will be glad to give you more definite information regarding rates and the exact period of time required.

Dear Miss Smart:
I have been going with a girl for over a year and asked her to marry me. She said she did not know, then she said yes. When I asked her when she wanted to know how much money I had, I told her I thought I had \$500. She said we had better wait and she refused to live with her people or mine. Now she is going away and does not want me to go with anyone while she is gone. She refuses to return a valuable gift which I gave her in case we break up, as she also gave me one and the agreement was that we would return the presents. She contradicts herself on so many things, I am in doubt. We are both middle-aged but know our minds. What is your advice?

UNDECIDED
As the marriage seems to be purely a business arrangement I would advise you to wait until you are both sure of what you wish to do. Maybe when she returns she will have made up her mind regarding the marriage. Sometimes absence is the best thing in such a case as both parties are able to see matters more clearly. Wait a few months and then if she does not know whether or not she wishes to marry you, you had better break your engagement.

MODISH LENGTH JAPANESE FANS

The modish skirt now is separated from the floor by about eight inches. Fashion authorities believe the distance will be less by fall.

Some very beautiful Japanese fans are trimmed with real lace and Oriental ribbons. Tassels of beads hang from the handles.

The First Thing

I noticed as I came in the Eliz. St. entrance the other day was a wierd looking lamp—with a red/parchment shade and a long purple tassell somewhat resembling a Turkish Fez—and upon inspection it turned out to be an imitation of that very thing. The shades are of parchment with the insignias of the Elks, Shriners, Grotto and K. of C. on them and you have to look twice to be sure they aren't hats. That's just the shade, though.

The Standards

are fairly tall—just the right height for a den table, and are of well carved mahogany. Their prices are most astonishing too—\$1.29 and \$1.50.

The shades are \$3.50—hand painted parchment, remember! Either shade or stick may be purchased separately. Just inside the entrance on the First Floor.

Jap Print Lunch Cloths

In blue and white, with the usual fantastic designs—chrysanthemum, grape, blossom, etc.

- 72 inch cloths, \$2.00.
- 60 inch cloths, \$1.39.
- 54 inch cloths, \$1.29.
- 48 inch cloths, \$1.00.
- 36 inch cloths, 65c.
- 12 inch napkins, 8c ea.

Notice of Public Improvement

Wm. C. DeMoss and Mary E. DeMoss, and Ida Mac L'arruff, whose place of residence is unknown will take notice that on July 3, 1922, the

City Commission of Lima, Ohio, passed Resolution No. 568 declaring it necessary to improve Ohio Street from Metcalf Street to McDonel Street by paving with either brick, sheet asphalt, asphaltic concrete, bituminous macadam, bitulthic or graded wood block, together with the necessary grading, curbing, guttering, etc. That the cost and expense of said improvement shall be assessed in proportion and according to the benefits which may result from said improvement upon all lots and lands bounding and abutting on said street and improvement, by the

foot front from Metcalf Street to McDonel Street, all of which lots and lands are hereby determined to be specially benefitted by said improvement. The grade of said street and the elevation of the curbs and service lines, in and under said

Engineer, and the improvements shall be made in accordance with the plans, specifications, estimates and profiles now on file in the office of the City Engineer. All sewer, water, gas, telephone and other underground connections, conduits and service lines, in and under said

portion of said street included in this improvement shall be constructed and installed within Ninety (90) days from the passage of this Resolution.

HARRY N. OSGOOD,
Clerk of The City Commission.
August 4, 1922.

THE RED HOUSE MYSTERY

By A. A. MILNE

BEGIN HERE TODAY
Within two minutes after
ROBERT ARLETT, ne'er-do-well
brother of
MARK ARLETT, ocellor proprietor
of the Red House, had arrived and
was seated in the office, a
shag was heard.
ANTHONY GILLINGHAM, a friend of
MARK ARLETT, one of Mark's guests,
arrived at that moment to find
Mark's companion,
MATT CAULEY, pounding on the locked
door of the office and demanding ad-
mittance. The two men entered the
office by a window and on the floor
found the body of Robert with a shil-
let thru the head. Mark was not
where to be found. Investigation by
Inspector Birch showed that Mark
had learned with considerable dis-
taste and annoyance of the coming of
Robert. Cauley refused to believe
that Mark had deliberately murdered
Robert.

GO ON WITH THE STORY
The housekeeper's room had heard
something of the news by this time,
and Audrey had had a busy time ex-
plaining to other members of the staff
exactly what he had said, and what
she had said. The details were not
quite established yet, but this much at
least was certain: that Mr. Mark's
brother had shot himself and spirited
Mr. Mark away, and that Audrey had
seen at once that he was that sort of
man when she opened the door to him.
Elsie had a contribution of her own
to make. She had actually heard Mr.
Mark in the office, threatening his
brother.

"He said, I heard him say it with
my own ears, 'It's my turn now,' he
said, triumphant-like."

"Well, if you think that's a threat,
dear, you're very particular, I must
say."

But Audrey remembered Elsie's
words when she was in front of In-
spector Birch. She gave her own evi-
dence with the readiness of one who
had already repeated it several times.
"Then you didn't see Mr. Mark at
all?"

"No, sir; he must have come in be-
fore and gone up to his room."

"Well, I think that's all that I want
to know. Now what about the other
servants?"

"Elsie heard the master and Mr.
Robert talking together," said Audrey
eagerly. "He was saying—Mr. Mark,
I mean—"

"Ah! Who is Elsie, by the way?"

"One of the housemaids. Shall I
send her to you, sir?"

"Please."

All that interested Inspector Birch
was that Elsie was passing thru the
hall, and heard voices in the office.

"And stopped to listen?"

"Certainly not," said Elsie with dig-
nity. "I was just passing thru the
hall, just as you might be passing
thru the hall, and not stopping your-
self to listen to what was going on."

"Come, come," said the inspector
soothingly. "Now then, what was it
you heard? Try to remember the ex-
act words."

Something about working in a pas-
sage, thought Elsie.

"Hm. Working a passage over—
could that have been it?"

"That's right, sir," said Elsie eager-
ly. "I've worked his passage over."

"Well?"

"And then Mr. Mark said loudly—
sort of triumphant-like—'It's my
turn now.' You wait."

"Triumphant?"

"As much as to say his chance had
come."

"And that's all you heard?"

"That's all, sir—not standing there
listening, but just passing thru the
hall, as it might be any time."

"Yes, well, that's really very im-
portant, Elsie. Thank you."

Elsie gave him a smile, and return-
ed eagerly to the kitchen.

Meanwhile Anthony had been explor-
ing a little on his own. There was a
point which was puzzling him. He
went thru the hall to the front of the
house and stood at the open door. He
saw Cayley had run round the house
to the left. Surely it would have been
quicker to have run round to the
right? Undoubtedly they went the
longest way round.

"Why?" he asked himself. "Was it
to give Mark more time in which to
escape? Only, in that case—why
run? Also, how did Cayley know
then that it was Mark who was try-
ing to escape? If he had guessed—
that one had shot the other, it was
much more likely that Robert had
shot Mark. Indeed, he had admitted
that this was what he thought. The
first thing he had said when he turned
the body over was 'Thank God! I
was afraid it was Mark! But why
should he want to give Robert time in

which to get away? And again—why
run, if he did want to give him time?
Anthony went out of the house again
to the lawn at the back, and sat down
on a bench in view of the office win-
dows.

"Now then," he said, "let's go thru
Cayley's mind carefully, and see what
we get."

Cayley had been in the hall when
Robert was shown into the office. The
servant goes off to look for Mark, and
Cayley goes on with his book. Mark
comes down the stairs, warns Cayley
to stand by in case he is wanted, and
goes to meet his brother. What does
Cayley expect?

Possibly that he won't be wanted
after all; possibly that his advice may
be wanted in the matter, say, of pay-

ment, he had at any rate a brain
which worked clearly and quickly.

And this clear brain of his had al-
ready told him that he was the only
person in the house at that moment
who was unhandicapped in the search
for truth. The inspector had arrived
in it to find a man dead and a man
missing. It was extremely probable,
no doubt, that the missing man had
shot the dead man. But it was more
than extremely probable, it was almost
certain that the inspector would start
with the idea that this extremely prob-
able solution was the one true solu-
tion, and that, in consequence, he
would be less disposed to consider
without prejudice any other solution.

Inspector Birch was certainly pre-
pared to believe that Mark had shot
his brother. Robert had been shown
into the office (witness Audrey);
Mark had gone in to Robert (witness
Cayley); Mark and Robert had been
heard talking (witness Elsie); there
was a shot (witness everybody); the
room had been entered and Robert's
body had been found (witness Cayley
and Gillingham). And Mark was
missing. Obviously, then, Mark had
killed his brother; accidentally, as
Cayley believed, or deliberately, as
Elsie's evidence seemed to suggest.

But there were other possibilities.

CHAPTER VI

The guests had said goodbye to Cay-
ley, according to their different man-
ner.

Bill had seen them into the car, had
taken his own farewells (with a spe-
cial squeeze of the hand for Betty),
and had wandered out to join Anthony
on his garden seat.

"Well, this is a rum show," said
Bill as he sat down.

"And you actually walked right into
it?"

"Right into it," said Anthony and
proceeded to tell all that he had al-
ready told the inspector, Bill interrupt-
ing him here and there with appro-
priate "Good Lords" and whistles.

"I say, it's a bit of business, isn't
it? Where do I come in, exactly?"

Anthony smiled at him.

"Well, there's nothing to worry
about, you know. Besides, I need you.
Things are going to happen here
soon."

ADVENTURES OF THE TWINS

HOW OSCAR OWL LOST HIS SUPPER

By Olive Roberts Barton

George Guinea-Pig was sound asleep.

Oscar Owl hung up the receiver of
his telephone and chuckled and
chuckled.

"Ten, hee, hee," he giggled.

"They say I'm wise, and no one
knows it better than I. I've just
telephoned to George Guinea-Pig I
knew where he could find a tail
and to Flop Fieldmouse I knew
where he could lose one."

"They are to be here at 8 to-
night! Hee, hee! I'll have a wait
for my supper but when the time
comes I'll have two."

About 6 Tommy Brown came
along to look at George. George
liked Tommy. Tommy was kind
and sometimes lifted him gently and
stroked him. George chuckled to
himself. Wouldn't Tommy be sur-
prised when he came back next day
and found him with a lovely long
tail!

Pretty soon the hired man came
along and stopped.

"Hello, Tom!" he said loudly.

"You will like

Europe Explains "Relativity" Last—With Movies

And Here Are the First Actual Reproductions from the Astonishing New Films Which May Make the Puzzling Einstein Theory as "Simple as A. B. C."

from Film Illustrating Relativity. The Lighthouse Are Not Visible, One to Other, but to an Space Both Are Visible

in the movies!

zy Einstein, the prohibition of many masquerades—but in the famous mathematician, of Relativity has created the element the scientific world has Newton was bumped on the

pple. While ago they were saying are only twelve hightrows on ould understand the meaning formula.

According to word that has just Berlin, a successful effort has y some of his fellow-scientists in terms of a popular educa-

from the film have been re-erica, and some of them are or the first time, on this page, id of these pictures, it is con- id fundamental aspects of the dry can be grasped by the d—even by the mind of a a-oid child.

is an effort at such a sim-ased on the movie pictures, id of it. You may not "get" m through it hurriedly in a

street car or subway, but if you read it at home, as you would a chapter from a book, you may find it as simple and fascinating as a fairy-tale.

And when you do "get it" you can have the fun of "explaining" the Einstein theory to your less learned friends.

So here you go: Relativity, to begin with, as it was understood even before Einstein, is simply the doctrine that knowledge about a particular thing is dependent upon the relation in which it stands to some other thing.

Take, for instance, a blade of grass. To you it is a small thing that helps make a carpet for your feet in Summer. But to a crawling ant a blade of grass is a great, tall tower, on which it may crawl up and survey the surrounding landscape. You say the blade of grass is small. The ant says the blade of grass is large. A complete paradox. Yet you are both right. A thing may be large and small at the same time. That is relativity.

Take now, the first picture from the Einstein movie—the one that represents a

Dr. Albert Einstein, From an Etching in The Berlin Tageblatt.

LIGHT RAYS TRAVELLING AT 186,000 MILES PER SECOND IN DIRECTION OF ARROW

TRAIN ONE MILLION MILES LONG MOVING IN DIRECTION OF ARROW AT ONE THOUSAND MILES PER SECOND

These Two Falling Balls Illustrate the Strange Paradox That a Line May Be Both Straight and Curved at the Same Time.

The Observer Believes Rifleman No. 6 Has Fired the Shot Which Pierced Armored Car, but It Was Really Fired by Rifleman No. 4. An Example of Relativity Explained in the Article on This Page.

section of the earth, with a ship and lighthouse. Imagine one observer in the lighthouse tower and another out at the side, in space, as you are when you look at the picture. The observer in the lighthouse says there is no ship in sight, and he is correct, for the ship is around a dip in the horizon, and he can't see it. You say there is a ship in sight, and you also are correct, for you see from a different angle.

Now look at the next strip of film—the flat landscape which shows a trench, an armored car moving in front of it, and six riflemen, numbered 1, 2, 3, 4, 5, 6.

The armored car is moving from right to left at an imaginary speed—exactly the same speed in which bullets fly from the rifles. As it comes exactly opposite rifleman No. 4 (middle panel) he fires a bullet. The bullet penetrates the rear side of the car, as shown in the middle panel of the film. As the bullet goes through the interior of the car the car keeps moving at the same speed as the bullet, and at right angles to it, with the result that the bullet goes through the far side of the car at the point marked X, in the middle panel.

At this very instant the car comes to a complete stop, in the position shown in the bottom panel of the film. Military observers go out to inspect it and decide which rifleman has hit it. They do not know that the car kept moving after the bullet penetrated the rear side. They take their instruments and draw a mathematical line through the two bullet holes as the car now stands. This line, indicated in white, points precisely to rifleman No. 6. Here is mathematical proof, they say, that rifleman No. 6 fired this bullet, and it is a well-known fact that mathematics never lie. So they pin a medal on rifleman No. 6. And in spite of their mathematics they are wrong, for it was really rifleman No. 4 who hit the car.

The lower strip—the ball dropping from a tower—takes you into a realm of relativity that is even more absolute, for it proves the amazing statement that a line can be absolutely straight, yet may also be curved. This is real "Einstein."

Here is a section of the earth, revolving

This Imaginary Train, 1,000,000 Miles Long, Traveling at a Terrific Rate Through Space, Is Used to Illustrate Einstein's Extraordinary Theories About the Speed and Properties of Light. A Fascinating and Complete Explanation Is Given on This Page.

In space from right to left. Observers in the tower are about to drop the ball and to calculate its exact path as it falls, with the finest scientific instruments.

Imagine yourself off in space, with another set of observers equipped with high-powered telescopes and equally fine scientific instruments for measurement of the line the ball makes when it falls.

You can see the ball fall, just as the people in the tower see—but what you can also see and what the people in the tower cannot see is the revolving movement of the earth which takes place while the ball is falling.

In the top panel the observers in the tower drop the ball. Impelled by gravitation it falls in an absolutely straight line to earth, along the dotted line, parallel at every moment with the tower itself. They have measured its movement and found the line absolutely straight.

Meanwhile, in the bottom panel, we have been making observations of the falling ball from our position out in space.

As the ball is falling the earth revolves a short distance from right to left, and the tower with it. So also does the ball—falling in a perfectly straight line with relation to the tower—and for this very reason, that it does tend to follow the tower and fall in a straight line with relation to it, the ball falls in a curved line with relation to our instruments out in space!

Study the dotted lines! It's amazing, but it's true! So this is relativity!

And what Professor Einstein has done is to apply this principle of relativity to the problems of physics, astronomy and higher mathematics.

He tells you that there may be a conceivable condition in which two and two do not make four—in which a straight line may not be the shortest distance between two points—in which two sides of a triangle may not be longer than its third side!

To explain this, he supposes a "fourth dimension" and "curved space." Do not be afraid of the phrase. You know what the three dimensions are—length, width and thickness. And you know what space is as conceived in these three dimensions. Einstein's contention is that space itself may be "curved" or "bent" on some gigantic scale, so that a line which travels "straight" by Euclidean geometry for a distance approaching infinity might eventually come back to the point from which it originally set out.

Still more extraordinary are Einstein's conclusions about the speed of light. All scientists know that light travels at the rate of 186,000 miles a second. Einstein's theory, according to some exponents, presents the amazing supposition that a ray of light will travel past an object which is itself moving rapidly either toward or away from it at exactly the same rate it would pass it if the object were standing still.

The large black-and-white drawing on this page illustrates this idea. It represents an immense railroad bridge stretching for billions of miles through infinite space. On it is an electric train speeding toward the reader at 1,000 miles per second. At each end of the train are two mirror reflectors, facing each other.

Fastened to the bridge is a searchlight. As the front end of the train passes the searchlight, the searchlight sends back a ray of light which strikes the rear mirror of the moving train. This rear mirror then throws the light forward to the front mirror. The front mirror, being on the moving train, is speeding away from the ray of light which is chasing it. You would expect that the reflected ray of light—the first flash which darted from the rear mirror—the instant the searchlight first struck it—would, in order to reach the front mirror, have to travel the million-mile-length of the train, PLUS the distance which the front mirror has been carried by the moving train during the time light takes to catch it. In other words, you would suppose, by the rules of physics, the ray would have to travel farther, and, therefore, have to take a longer time, because of the train's movement, than if the train had been standing still. But Einstein's theory, and certain actual experiments, seem to prove that the ray of light would take exactly the same time to make the journey as if the train were standing still!

From this the extraordinary idea is deduced that "the speed of light between two bodies is not affected by the movements of either body." In other words, two planets may be moving toward each other or away from each other at an enormous rate of speed, yet the time it takes for light to travel between them is the same as if they were both standing still!

Is the Einstein theory true? Nobody knows. He doesn't know himself. But the world's greatest astronomers and mathematicians have discovered that it seems to work practically in certain cases, and therefore they believe it may be true and regard Einstein as one of the world's greatest living men.

MUTT AND JEFF—MUTT HAS TO HAVE SOME PRIDE—

By BUD FISHER

BRINGING UP FATHER—

—BY M'MANUS

SHORT SHAVINGS

Jim Haffner, auto club manager, unlocked his summer cottage near Indian Lake.

"Wasps had built a nest in the clock," he says. "I started to wind it. That's why I came out thru a window."

Tom German, Delphos grocer, went to a picnic, tried to jump a creek, he fell a yard short and went up to his waist—splish!

He had underestimated the distance, or overestimated his ability, but that was not his interpretation of it. He looked about anxiously and said, "Some one moved the bank!"

Frank Kinzer, central fire department, says he has no rival among the horseshoe pitchers with whom he has pitched.

He was asked, "How long have you been champion, Frank?" Kinzer said, "Ever since I pitched a horseshoe on the foot of the only one who could beat me. That's Gus Weber."

"Dusty" Miller, Wapakoneta mail carrier, thought it was too dangerous to leave his automobile parked out in plain sight at night on a downtown street in Wapakoneta.

So he stopped that and hid it up an alley, with the result that it was stripped of nearly everything except the smell of gasoline.

Miss Margaret McNeft, telephone operator at City hall, tells of a girl friend who walked home from a party with a man she liked, and of how her expectations were thwarted.

He said, "There is something I would like to tell you, but I'm afraid you will think I'm too bold."

"You're sure you won't think I'm too bold?" he hesitated. "Well, I think you are losing a hairpin at the back of your neck."

COMPETITION ASSURES FINE CONCERTS BY RADIO

(BY PAUL F. GODLEY)

America's Foremost Radio Authority. Until the recommendations of the recent conference on radio telephony at Washington are enacted into law, it seems that we are in for some friction between competing broadcasting stations.

There seems to be considerable difficulty in several parts of the country to arrange radio programs without conflicts. Several of the larger stations seem to feel that their claims on the ether should receive first attention.

As a matter of fact, those interests which provide the highest quality of program will eventually win out over those who are content to supply the public with canned music.

Open competition for the public ear, without interference or congestion, is the thing which will bring out the best in broadcasting.

A great deal is expected from the American Telephone & Telegraph Company, which announced that it would enter the broadcasting field from its new station, WBA7. Hundreds of thousands of dollars spent in research work has given them equipment which is second to none. Many who have these stations in test operations prefer them to those which are already in operation.

It is understood the A. T. & T. originally failed to get into the radio broadcasting field as a result of its inability to obtain a license to operate a toll broadcasting station on a wave length of about 435 meters. However, this station, which is intended for commercial broadcasting, has been assigned for the present, by the U. S. Department of Commerce, a wave length of 350 meters.

HOURS ASSIGNED
This does not permit simultaneous operating on the same wave length in the New York area. As a consequence, certain hours have been assigned to the stations in the New York district by an agreement among the stations themselves and with the approval of the Department of Commerce.

Under the A. T. & T. plan, any-

one who wishes to provide some good radio features for the public may rent the station for periods of 15 to 30 minutes. In announcing the selection, credit will be given to the organization providing the performance and paying for the use of the station.

A. W. Drake, general commercial manager, in charge of this station, says that there have been close to 100 applicants for its use, and he has taken steps to arrange with these applicants for the programs which they will provide.

While radio advertising has not as yet been prohibited by laws or regulation, it is considered, in the public interest, that applicants for the use of this station should provide programs of general interest.

In this way, it is expected that considerable publicity will accrue to the station and a very high class program will be broadcast. It is doubtful whether any of the great merchandising companies would care to have their names associated with anything other than first-class entertainment.

SIMULTANEOUS CONCERTS

To satisfy the two larger factions of radio audiences, one that demands classical music and the other that enjoys the popular productions, the Radio Corporation of America is planning the erection of a super-station, from which both kinds of music will be broadcast at the same time. This station will have a range of 1500 miles. It will be atop one of the business buildings in the heart of New York. Two 100-foot towers will suspend a 200-foot aerial 330 feet above the ground.

From the same aerial, but from separate studios, both classes of music will go out on different wave lengths. Both programs will be handled separately in the two studios, but modulation will be governed from a central control room.

Rivalry between the several competing organizations getting permission to broadcast their programs and such other radio organizations as have their own stations is sure to raise the standard of the material that will be sent out.

ENTERTAINMENT TO ENTERTAINERS

Radio is furnishing entertainment to entertainers. To many who have had to appear before audiences at night, there was little chance to hear a concert or enjoy any other form of entertainment. Now, with radio in their dressing rooms, the actors and actresses are included in the ever-increasing broadcasting audience. Here, for instance, is Olga Steck, leading lady in a New York play, listening in on a concert while she's preparing to make her entrance on the stage.
